The crisis in Germany drifted toward a more acute international stage today with the revelation in Berlin that an unidentified Vatican spokesman had issued a call to all Christendom to unite in defense against the rage of terrorism.

In the meantime, the Vatican instructed its delegates at Munich to lodge a strong protest against the reported murder of Father Emil Muehler by German Nazis.

The Vatican also protested against the denial of the last sacrament to other Catholic victims of the Hitler counter-revolt.

It was learned today that despite a government statement that executions ended a week ago, killings continued in Germany all week, with the dead approaching the 200 mark. The Hitler government promised to make public a list of 46 names on Monday.

Dear Pa News—
The hot dry weather brings bugs and more bugs. Last week I found one that is going to do a lot of damage. The Blister Beetle, this beetle is black and carries two light orange stripes through its fine wings, shasta daisies, dahlias, chrysanthemums and Japanese lanterns are the favored food of the blister beetle. This pest is going to be a menace to all flower gardens if it is ignored for I have watched it feeding the young plant leaves. I have exterminated the ones I found with arsenate of lead dust.

Harry White, of Enon Valley, R. F. D. It is believed that the snake crawled into the car during the night as he had it parked under a tree at his home.

BERLIN, July 7.—Despite a government statement that executions ended a week ago, International News Service learned today from an authoritative source that killings continued all week, at least until last night.

Today the government finally resolved to issue a death list—of forty-six names which will be made public Monday.

Government circles, however, admit privately that at least 170 persons were killed in the "purging" process and that 200 would be a reasonable estimate.

This figure includes several persons killed during the terror which gave an opportunity to some terrorists to slay anyone they disliked.

Their names and the names of relatively unknown persons will not be published.

It is now learned that Chancellor Hitler not only did not demand the resignation of Von Papen but refused to accept it when Von Papen offered to step out.

At the decisive cabinet meeting after the shootings began Von Papen presented his resignation but Hitler rejected it.

San Francisco Labor Council May Determine Future Course Of Strike

(International News Service)
SAN FRANCISCO, July 7.—As the grim spectacle of a waterfront bristling with rifles, bayonets and machine guns in the hands of the steel-helmeted national guardsmen put an effective damper on strike violence, the spotlight in the coast-wide marine strike situation swung today to the halls of the San Francisco Labor Council and the President's three-man national Longshoremen's board.

A tense quiet reigned on the waterfront, scene of bloody riots Thursday.

Rejecting the exhortations of extremists for an immediate general strike, the labor council, which comprises 12 of the city's unions, adopted by an overwhelming vote a resolution calling for the appointment of a "strike strategy committee" of seven men to probe the situation and advise the unions now on strike and those which contemplate strike action.

The resolution, passed by a vote of 165 to 8 was branded as a "subterfuge" and "a dodging of the issue" by the strikers.

Declares Hitler Executed Roehm

(International News Service)
PARIS, July 7.—The sensational charge that Chancellor Adolf Hitler personally shot and killed his friend, Capt. Ernst Roehm, commander of the Storm Troops during last week's revolt in Germany was attributed by the Paris Midi today to Walter Flexius, section chief of the Brown Shirts who fled from Berlin to the Saar.

Flexius's charges according to the Midi, were made in a booklet which is being distributed today at Saarbrücken.

The booklet, it was alleged, also declared that 200 had been executed and that 6,000 were under arrest in Germany.

Hitler personally killed Roehm without warning, firing two bullets into his body, Flexius was alleged to have asserted.

Open Attack On New Deal At Republican Party Birthplace In Michigan

(International News Service)
JACKSON, Mich., July 7.—This birthplace of the Republican party was the scene today of the official opening of the grand old party's onslaught on the Democratic new deal.

Rallying about their ancient battle cry: "Back to the constitution," thousands of Republicans gathered beneath the oaks where eight decades ago a group of Whigs assembled to organize a new party as a protest against the principles they condemned.

The keynote of the Republican attack this year is expected to be sounded by Henry F. Fletcher, new chairman of the Republican national committee. Fletcher's speech and

Declares Hitler Executed Roehm

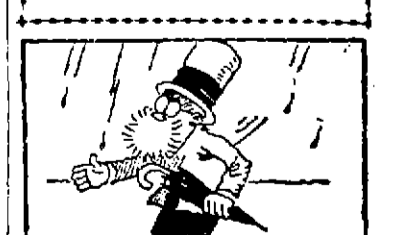

(International News Service)
PARIS, July 7.—The sensational charge that Chancellor Adolf Hitler personally shot and killed his friend, Capt. Ernst Roehm, commander of the Storm Troops during last week's revolt in Germany was attributed by the Paris Midi today to Walter Flexius, section chief of the Brown Shirts who fled from Berlin to the Saar.

Flexius's charges according to the Midi, were made in a booklet which is being distributed today at Saarbrücken.

The booklet, it was alleged, also declared that 200 had been executed and that 6,000 were under arrest in Germany.

Hitler personally killed Roehm without warning, firing two bullets into his body. Flexius was alleged to have asserted.

BERLIN, July 7.—Despite a government statement that executions ended a week ago, International News Service learned today from an authoritative source that killings continued all week, at least until last night.

Today the government finally resolved to issue a death list—of forty-six names—which will be made public Monday.

Government circles, however, admit privately that at least 170 persons were killed in the "purging" process and that 200 would be a reasonable estimate.

This figure includes several persons killed during the terror which gave an opportunity to some terrorists to slay anyone they disliked.

Their names and the names of relatively unknown persons will not be published.

At the decisive cabinet meeting after the shootings began Von Papen presented his resignation but Hitler refused to accept it.

SAN FRANCISCO, July 7.—As the grim spectacle of a waterfront bristling with rifles, bayonets, and machine guns in the hands of the steel-helmeted national guardsmen put an effective damper on strike violence, the spotlight in the coast-wide marine strike situation swung today to the halls of the San Francisco Labor Council and the President's three-man national Longshoremen's board.

Rejecting the exhortations of extremists for an immediate general strike, the labor council, which comprises 12 of the city's unions, adopted by an overwhelming vote a resolution calling for the appointment of a "seven man strategy committee" of seven men to probe the situation and advise the unions now on strike and those which contemplate strike action.

The resolution, passed by a vote of 165 to 8 was branded as a "subterfuge" and "a dodging of the issue" by the extremists.

(International News Service)

LANCASTER, Pa., July 7.—Two men and a woman killed when their automobile struck a pole on the Lancaster-Manheim pike, today were believed to have been electrocuted by a high tension wire dislodged by the impact of the crash.

The victims were: Phares Fink, owner of the car; Clarence Grislinger and his wife, Miriam, all of Anheim.

The two men were slightly burned when the car burst into flames after the collision.

Authorities said they believed Fink and Grislinger were electrocuted when the wire fell across the automobile and Mrs. Grislinger, who was thrown from the automobile, was electrocuted when the loose end of the wire fell across her shoulders as she lay beside the road.

The cause of the accident was not immediately determined.

John D. Rockefeller Will Be Ninety Five Years Old Sunday

By JAMES L. KILGALLEN
International News Service Staff
Correspondent

LAKEWOOD, N. J., July 7.—John D. Rockefeller will be 95 years old tomorrow and slowly—inevitably—the famous philanthropist is slipping out of the limelight into a serene, settled and somnolent existence.

No more golf—the game he loves. No longer a regular attendant at Sunday church services.

No longer active in business. Seldom seen in the newsreel movies.

The answer is not so much illness as it is age—the fact he has exceeded the allotted "three score and ten" by 25 years.

How long the old gentleman will live is, of course, anybody's guess. But no one who knows him well doubts that he will live beyond the ripe age of 100.

Gives Up Golf.
Rockefeller was indisposed again early this week but it wasn't serious and he is all right today—considering his age.

His personal physician, Dr. Robert Buerman of Lakewood, expresses no fear for his health but says he must

have no excitement or undue physical exercise, that's why he has had to give up golf.

"John D." hasn't played golf, his favorite game, this year. Not many years back he played nine holes a day. Gradually he cut the distance down to seven holes, then five, and finally three holes—to avoid fatigue.

Takes Auto Rides.
Now his only form of recreation is occasional automobile rides within his estate here.

"No need of stressing Mr. Rockefeller's condition," Dr. Buerman told International News Service today. "Considering his advanced age he is in good shape. He is going along much as usual except that he has given up golf."

Rockefeller has not attended church in Lakewood since he returned from his winter home at Ormond, Fla. He has had only a few visitors.

Visited By Ministers.
One of these visitors is the Rev. John Herrick Darling, rector of the First Presbyterian church of Lakewood, although Rockefeller is a Baptist, and in previous years attended that church, he has also attended the Presbyterian church.

Other Lakewood residents who have visited him of late are the Rev. Marshall Sewell, pastor of the Baptist church, and L. Verne Chase, a friend of long standing.

Rockefeller rises early as has been his wont for years. On nice days he goes for an automobile ride or rests in the shade of the lawn with members of his family.

No longer does he pass out nickels (it used to be shiny dime before the depression) because he doesn't get out among the people of Lakewood who are very fond of "Neighbor John."

Donates Much Money.
Although he lives not far from the Lakehurst naval air station there is no record that he ever visited there.

Rockefeller's mail at present is light.

Even today, in his declining years, charity springs from the heart of "John D." whose donations for philanthropic purposes has exceeded \$500,000,000. He is one of the largest donors to the present Boy Scout campaign now in progress here. He also contributes generously to the Baptist and Presbyterian churches in Lakewood.

Cool weather promised for last night failed to arrive, and New Castle folks spent another sweltering night. Promises of rain today, however, may cool off the atmosphere by this evening.

Dear Pa New—
The hot dry weather brings bugs and more bugs. Last week I found one that is going to do a lot of damage. The Blister Beetle, this beetle is black and carries two light orange stripes through its fine wings, shasta daisies, dahlias, chrysanthemums and Japanese lanterns are the favored food of the blister beetle. This pest is going to be a menace to all flower gardens if it is ignored for I have watched it riddling the young plant leaves.

I have exterminated the ones I found with arsenate of lead dust.

Harry White, of Enon Valley, R. F. D. No. 1, got the thrill of his life one day this week, when a two-foot house snake crawled out of a narrow aperture in the top of his car, just over the windshield, as he was descending the Mt. Jackson Hill. Mr. White hastily applied the brakes and the snake dropped down into his lap. It is believed that the snake crawled into the car during the night as he had it parked under a tree at his home.

Two dingy frame houses down on Mahoning avenue, near the Shenango Works of the tin mill, have tumbled.

SPECIAL SESSION QUESTION LOOMS LARGER

Governor Must Meet Situation

Problem To Be Considered On Pinchot's Return To Capital Monday

STATE MAY NEED TO RAISE LARGE SUM

By SYDNEY H. EIGES
International News Service Staff Correspondent

HARRISBURG, July 7.—The question of another special session of the legislature to provide funds for relief loomed large on the political horizon today as Gov. Gifford Pinchot's return to the capitol Monday after a 10-day vacation was awaited.

The governor was expected to discuss the relief situation with his cabinet, and advisers immediately upon his return Monday.

Under the dictum of Harry L. Hopkins, federal emergency relief administrator, Pennsylvania was faced with the loss of federal funds after August unless it contributes a "reasonable share" towards the cost of the relief burden.

May Need \$14,000,000

It was unofficially estimated that if Hopkins' interpretation of a "reasonable share" was a dollar-for-dollar contribution, it might be necessary for the commonwealth to provide a total of \$14,000,000 to finance its share of the relief burden until next January when the legislature meets in regular session.

The cost of direct relief at present average around \$7,000,000 a month. For the four remaining months after August the amount would be \$28,000,000. It was not expected the state would participate in the financing of work relief should it be forced to pay a share of the direct relief costs.

A rising tide of opposition to another special session of the legislature from organizations of publishers, business men and lawyers faced the governor on the relief question. He already has vetoed a suggestion that the money be transferred from the motor license fund which has about \$20,000,000 to its credit, an amount considered greatly in excess of its expected expenditures.

Governor Pinchot's attitude towards the relief situation was eagerly awaited by political leaders of both major parties who professed to be able to glean from it a hint about his own political future concerning which he has been silent.

One of the most pronounced stretches of "washboard" road that Pa. Neww has encountered in a long time, is the road from Highland avenue, towards Walmo. It is exceedingly rough. Gravel roads apparently do not stay smooth very long, as the road was worked not very long ago.

Rains of the past two weeks are working wonders with lawns about the city. Many that were badly burned out in June are now looking nice and green.

A nice row of trees have been planted along the school property on Laurel avenue. The trees look as though they are in need of some watering, however, if they are to come through the summer. Newly planted trees must be given lots of attention, and especially lots of water, in order that they survive the first summer, Pa. Neww is told.

Reaping Washington street, now in progress, is quite a contrast to the days when the street was reaped previously, probably twenty years ago. At that time it was necessary to issue bonds to provide for the work, and whether or not to reape and issue bonds was a debated question around city hall and the city for months, before the final action was taken that allowed the reaping to be contracted for. The work is now being done by the State Highway department, and citizens of New Castle had hardly any intimation of the work until it was started.

Meanwhile strike agitators were circulating among the labor unions urging a general walkout to tie up San Francisco industry and business.

Camp Phillips To Open On July 14

Boy Scouts Will Commence Camp Season One Week From Today

It was decided to open Camp Phillips of the Boy Scouts on Saturday, July 14, after conferences with the camping committee chairman and other scouts close to camp work so the scouts and scouts now at camp will have ample time to have everything in readiness for the boys who register for next Saturday. As there are only two weeks of mass camping it is urged that every scoutmaster see all his scouts and get a checkup on who is going to camp so that the council office and the camp staff may be prepared for them.

The scouts serving as a pioneer squad have been doing some real work in the past week. The dock has been put in, the slide is being set up, a new steel diving tower has been set up, and best news of all, a deeper swimming place has been arranged for so that swimmers and lifesavers will have a real place to dive into. The shalowness of the regular camp bathing place this year led camp leaders to take this step; and so yesterday the squad was busy doing some intensive diving of its own; clearing a fine place for the new work and arranging for other help in this line.

Mrs. William Klee, one of the school cafeteria cooks here, will be chief cook and will be assisted by Mrs. Stevenson, these two camp staff members probably coming out on Thursday to have everything in readiness. Mrs. Davis has had the first aid equipment in mind, and some of the scout are busy cleaning up around the building used as a dispensary, the first aid equipment being installed as soon as the building is ready.

Scout campers this year will find an attractive program. Dan Carroll, teacher and coach at George Washington junior high school, has volunteered to give the boys a camp director staff. With Sam Howard and Dick Herman as examiners in the Red Cross lifesaving corps, as waterfront men, with other good leaders lining up on the rest of the staff, it certainly promises well for an interesting time for scouts fortunate enough to attend Camp Phillips this season.

VATICAN ENTERS PROTEST AGAINST NAZI TERRORISM

(Continued From Page One)

ing unrest in the ranks of the army he created to lift himself into power. Hitler took steps to conciliate the dissatisfied elements and to hold the loyalty of brown shirts.

Two of his trusted lieutenants, Rudolph Hess and Wilhelm Kube, were chosen by Hitler as his chief conciliators. Hess is the vice chairman of the Nazi party.

"The party has not forgotten its old storm troops," Hess declared, "and it is known that the old, self-sacrificing fighting storm troops had nothing to do with the conscienceless mutineers who were at the head of the storm troops. I as an old storm trooper will never permit that my storm troop comrades shall be insulted or degraded."

Seek Support.

In an article in the Beobachter, Kube, likewise an old comrade of the storm troops, declared:

"The old storm troops remain the central part of the Nazi party. Roehm and his confederates were bums."

The obvious anxiety of the Nazi party to reassure the storm troops after the execution of their leaders in last week's "purging" of the alleged traitors in the Nazi ranks indicated the seriousness with which the situation affecting the brown shirts is regarded.

It followed the announcement by Victor Lutze, the new commander of the storm troops, that a reorganization of the brown shirts and a reduction in their number would be effected. Lutze declared that membership in the storm troops hereafter would be confined to those who were 100 per cent loyal to "Der Fuehrer," the name by which Hitler is known to his cohorts.

In some quarters it was believed that the plan was to drop from the ranks of the Nazi army some of the newer elements and retain the veterans, those who have been tried and proved worthy since the earliest stages of the Nazi movement.

The problem of what to do with those who will be weeded out has not yet been settled, but it was intimated they might be formed into some sort of a "reserve" organization.

Significant Rumors.

Officials scooped reports that a new revolt in the storm troops ranks was impending but there were significant rumors that about one-third of the arms possessed by the brown shirts were "missing" when Hitler was attempting to retrieve them. The rumors were not confirmable but were seriously regarded in authoritative quarters.

The situation with the ranks of the storm troops was regarded as the biggest danger now faced by Chancellor Hitler. Significantly, it was learned that headquarters of the storm troops have been moved to Berlin, where Hitler can keep an eye on the leadership. Instead of Munich, from which place Capt. Ernst Roehm, the leader Hitler had shot as a traitor, was able to build up his revolutionary movement.

Meanwhile, Franz Von Papen, vice chancellor and critic of Nazi policies, remained a thorn in the side of the Nazi regime and his future status was still undecided. It was reported Von Papen intended to force the government either to prove its charges that some of his aides were involved in subversive activities or publicly declare them guiltless. When this is done, it was said, the vice chancellor would retire from the government unless the personal influence of President Paul von Hindenburg was brought to bear to induce him to remain.

Isolation For Germany.

Germany's isolation from friendly nations as a consequence of the indiscriminate killings that began one week ago in her reign of terror became more clearly marked today and the depression of the German population increased as foreign newspapers brought further news of the reaction abroad.

The ministry of propaganda, headed by Dr. Paul Joseph Goebbels, is in absolute control of the German newspapers which print only what the government wants them to print.

SPECIAL SESSION QUESTION LOOMS LARGER

Governor Must Meet Situation

Problem To Be Considered On Pinchot's Return To Capital Monday

STATE MAY NEED TO RAISE LARGE SUM

By SYDNEY H. EIGES
International News Service Staff Correspondent

HARRISBURG, July 7.—The question of another special session of the legislature to provide funds for the relief of the unemployed has become a political horizon today as Gov. Gifford Pinchot's return to the capitol Monday after a 10-day vacation was awaited. The governor was expected to discuss the relief situation with his cabinet and advisers immediately upon his return Monday.

Under the dictum of Harry L. Hopkins, federal emergency relief administrator, Pennsylvania was faced with the loss of federal funds after August unless it contributes a "reasonable share" towards the cost of the relief burden.

May Need \$14,000,000. It was unofficially estimated that if Hopkins' interpretation of a "reasonable share" was a dollar-for-dollar contribution, it might be necessary for the commonwealth to provide a total of \$14,000,000 to finance its share of the relief burden until next January when the legislature meets in regular session. The cost of direct relief at present average around \$7,000,000 a month. For the four remaining months after August the amount would be \$28,000,000. It was not expected the state would participate in the financing of work relief should it be forced to pay a share of the direct relief costs.

A rising tide of opposition to another special session of the legislature from organizations of publishers, business men and lawyers faced the governor on the relief question. He already has vetoed a suggestion that the money be transferred from the motor license fund which has about \$20,000,000 to its credit, an amount considered greatly in excess of its expected expenditures.

Governor Pinchot's attitude towards the relief situation was eagerly awaited by political leaders of both major parties who professed to be able to glean from it a hint about his own political future concerning which he has been silent.

Newly planted trees must be given lots of attention, and especially lots of water, in order that they survive the first summer, Pa Newc is told.

Repaying Washington street, now in progress, is quite a contrast to the days when the street was repaved previously, probably twenty years ago. The work is now being done by the State Highway department, and citizens of New Castle had hardly any intimation of the work until it was started.

The strike committee is the best move now; it will help us lay organized plans in the event a general strike is later called."

Ferryboat engineers, in a union meeting, postponed any strike decision. A unit of the Carmen's union voted to "go along with the majority of labor."

The general strike was urged by striking marine union heads in protests against acting Governor Frank F. Merriam's calling out of state troops to protect waterfront property.

Camp Phillips To Open On July 14

Boy Scouts Will Commence Camp Season One Week From Today

It was decided to open Camp Phillips of the Boy Scouts on Saturday, July 14, after conferences with the camping committee chairman and other scouts close to camp work, so the scouts and scouts now at camp will have ample time to have everything in readiness for the boys who register for next Saturday. As there are only two weeks of mass camping it is urged that every scoutmaster see all his scouts and get a checkup on who is going to camp so that the council office and the camp staff may be prepared for them.

The scouts serving as a pioneer squad have been doing some real work in the past week. The dock has been put in, the slide is being set up, a new steel diving tower has been set up, and best news of all, a deeper swimming place has been arranged for, so that swimmers and lifesavers will have a real place to dive into. The shallowness of the regular camp bathing place this year led camp leaders to take this step, and so yesterday the squad was busy doing some intensive diving of its own, clearing a fine place for the new work and arranging for other help in this line.

Mrs. William Klee, one of the school cafeteria cooks here, will be chief cook and will be assisted by Mrs. Stevenson, these two camp staff members probably coming out on Thursday to have everything in readiness. Mr. Davis has had the first aid equipment in mind, and some of the scouts are busy cleaning up around the building used as a dispensary, the first aid equipment being installed as soon as the building is ready.

Scout campers this year will find an attractive program. Dan Carroll, teacher and coach at George Washington junior high school, has volunteered to give some service on the camp director staff. With Sandy Howard and Dick Herman as examiners in the Red Cross lifesaving corps, as waterfront men, with other good leaders lining up on the rest of the staff, it certainly promises well for an interesting time for scouts fortunate enough to attend Camp Phillips this season.

Carl L. Leathers, Frank Patterson 3rd, and Phil G. Greer. All of them spoke glowingly of the work done by Mr. Round in his capacity of director and said that the years to come would show the wisdom with which the projects in this county were planned and executed. In behalf of the employees Mr. Gunton then presented Mr. Round with a set of binoculars. Mrs. Round was presented with a bouquet of flowers.

In his reply Mr. Round thanked the employees for loyalty and cooperation. He said that through their efforts and the efforts of the men on the projects, New Castle had been given one of the most comprehensive park systems in the state. Gunton park he described as a "Paradise for Birds" and a breathing spot for the people. Gaston park he said was peculiarly suited for mother and children.

There was no motor traffic in the park and it was laid out for a playground for the youngsters. Cunningham park he said was designed for the athletically inclined and for people who like to drive through scenic highways. Cascade park he said was a combination of all the others.

Mr. Round expressed the hope that the work on parks here would not cease but that it would go forward to the conclusion of the plans that had been drawn. He expressed his deep appreciation of the remembrance given him and wished the guests success in their work under the new director of work.

Vatican Protests.

Vatican City, July 7.—The Vatican took energetic action today in protesting against the reported murder of Father Emil Muter by German Nazis, and against the denial of the last sacrament to other victims of the Hitler "counter-revolution" of a week ago.

The ecclesiastical authorities at Munich were instructed to deliver the protest to the Hitler government.

Cardinal Faulhaber of Munich is reported to be particularly incensed by the cynical explanation received from Nazi officials that Catholics, slain at Hitler's orders, were denied the sacrament "because the guilty party was unworthy."

It is understood that the Vatican is collecting evidence of the execution of Catholics in Germany with the intention of issuing a white book for publication throughout the world.

"Dizzy with sudden, unrestricted power, unaware of any responsibilities except perhaps of that to their own sentimental theories, they are experimenting with our national life. The industrial and business body of America is strapped to the classroom table while they delve into its insides."

"I doubt very much whether they have given any thought to putting it together again, but if they have it is certainly not based on any practical or constructive experience of their own."

"There can be no doubt the constitution is being undermined today."

IT'S HERE! ... a wrist watch for a GIANT!

COME and see for yourself a wrist watch made for a man 60 feet tall! Of course he doesn't exist, but that's how large he'd have to be to wear this watch.

It's a Giant Gruen Quadrant — an exact duplicate of the smart golden Precision Quadrants we're now showing — but it's about 100 times as large! It weighs almost 50 pounds, and cost over \$8,000. Craftsmen of the Gruen Guild spent over 18 months making it!

See this Giant watch — see the precision with which it works — and you'll understand why the Gruen Quadrant is known as "the nearest approach to pocket-watch accuracy ever put on the wrist!"

COME and see for yourself a wrist watch made for a man 60 feet tall! Of course he doesn't exist, but that's how large he'd have to be to wear this watch.

It's a Giant Gruen Quadrant—an exact duplicate of the smart golden Precision Quadrants we're now showing—but it's about 100 times as large! It weighs almost 50 pounds, and cost over \$8,000. Craftsmen of the Gruen Guild spent over 18 months making it!

See this Giant watch—see the precision with which it works—and you'll understand why the Gruen Quadrant is known as "the nearest approach to pocket-watch accuracy ever put on the wrist!"

IF IT COULD BE DONE

ONE of the plans for the future, evolved by our social engineers, is that which visualizes the moving of people from our congested centers of population out into the wide open spaces.

Mrs. Rosalie Sampinelli of somewhere near Washington square, New York, is to become Mary of the Vineclad Cottage, amid the hills of old Kentucky. All of which is fine, if it will work.

But there are some difficulties. In the first place the average city dweller, one born and raised on and near the cement pavements and by the busy roar of traffic, has some distorted ideas of rural life, and the kind of people who live there. The average native New Yorker thinks that civilization ends a few miles west of the Hudson river and that life would not be worth living away from the bright lights, the beach at Coney, and the rush and roar of subway traffic.

He wants none of the "hick country" for himself. He prefers the milk that comes in bottles to that which comes fresh from the cow—when he prefers milk at all—the smell of the city street to the order of newmown hay. Dwellers in other great cities are no different.

Of course it may be possible for our social engineers to change this psychology but we doubt it. The country boy naturally turns with longing eyes to the city, but few city boys look toward the country as a place for a career.

And if the psychology can be changed, just how good a farmer will one of these dwellers of the city canyons make? Of course he might be lodged in a small factory town but we doubt whether this would very much improve his esthetic spirit or his outlook on life, not to speak of the result for those already in the small town.

It may be and has been possible to put this over on the Russian worker, and move him about like a load of goods, but it is going to be a little more difficult in the United States. And those who think that tenement folks in the city are just waiting for a chance to rush out into the wide-open spaces to live are due to some disappointment.

Some of them might try it as a lark, but most of these would drift back to the bright lights as soon as Uncle Sam got tired putting up the money.

A POPULAR ISSUE

Representative John Ridley Mitchell, of Tennessee, stands a pretty good chance of going back to congress.

He has an issue that certainly should appeal to the favorable consideration of taxpayers.

Mr. Mitchell is a strong opponent of nepotism. He has met little success so far in his efforts to rid the federal government of this evil, but he has not given up the fight. And he is determined not to give it up, but to prosecute it with even more vigor in the future. He has announced that in the next session of congress he will widen the scope of his efforts. Instead of seeking merely to outlaw the practice of nepotism by congressmen, he will include in his proposal every governmental field. He says he will foster a bill to make it illegal for any federal official to appoint to office any relative within the third degree.

The matter is one that has received much attention in the last year or two. Wives, sons, daughters, nephews, cousins and others further removed in their relationship to congressmen are on the government payroll solely because of that relationship. One government official outside of congress is said to have placed five of his children in well-paying posts.

The recipients of patronage because of relationship rather than merit may, in many cases, earn their pay. This, however, does not make the practice less objectionable from the public standpoint.

Its evil generally is recognized and combined. Numerous posts so filled are not necessary. They constitute an unjust burden on taxpayers.

MEXICO IS AT PEACE

The election of General Lázaro Cárdenas as president of Mexico, accomplished without a sign of trouble in an election day marked by total quiet, comes as a bright spot in the mess of internal nationalistic troubles now besetting what sometimes appears to be a large part of the world.

Long noted for such "internal dissensions" as assassinations, bloody elections and depredations of outlaw bands, the sturdy republic to our southwest has turned over a new leaf in recent years.

Trouble may range unchecked among her Latin-American neighbors and in European nations; but no more in Mexico. This man Cardenas, with a six-year plan that has many of the elements of stability, was elected for a term of equal length without the necessity for even one call for police and soldiers. And the Socialist candidate ran a poor third, with the Communist choice bringing up the rear of the procession, never in the contest at any stage.

It is surprising and highly pleasing to find this orderly functioning of governmental affairs in a land where trouble had reigned for so many years.

HOW MANY IDLE?

It is regrettable that there is no reliable method of counting or estimating the number of unemployed persons in the United States.

All through the depression we have been told by this and that organization or agency that so many persons were idle, but no two sets of figures were in agreement. There were large discrepancies.

The same condition still prevails. The American Federation of Labor recently placed the number of unemployed at slightly more than 10,000,000. At almost the same time, the National Industrial Conference board was telling the country that the idle numbered a little less than 8,000,000.

Which is correct? Nobody can say with certainty. The department of labor, if called on for an estimate, probably would give an entirely different set of figures.

In the absence of any reliable information on the point, the country will hope for the best and believe that the number of idle is steadily if gradually declining, this belief being based on observable improvement in the general industrial situation.

YOU.....YOU.....YOU
SOME MINOR disappointment—like having it rain when you planned a picnic—is a great annoyance to you and you complain fitfully; but you face a major disappointment, manfully drawing upon some hidden reservoir of strength that is within us all, though we tap it rarely.

You wonder what you would do if you were ever greatly tempted to steal a great sum of money, without possibility of being detected....or if you found a big package of bills on the street....You hope you'd do the right thing, but you wonder how much you'd be tempted.

You wish sometimes, that you didn't have to work, but you find it difficult to plan a life without work.

You put up your hand for a street car, but it goes right by without stopping. You are furious. You plan revenge. You swear you'll report that motorman. You'll punish him as he deserves....But you don't do it. Somehow you don't want it on your conscience that you caused him to lose his job....Or perhaps your hot impulses are no more enduring than some of your gentler ones.

You may boast that you have a sense of humor or that you are a good judge of human nature, but never that you have a kind heart.

You don't know where the money goes.

You tell your former friend that you envy him his life in the country. He tells you about peas, frost, drouths, mortgages low prices, taxes. You ask him if he'd rather live in the city, and he says "No!"

You abuse city life to him and he asks you if you would really like to live on a farm every day in the year, and this time YOU say "No!"

When you have a pain in your right side you wonder if it's appendicitis.

You aren't as certain of most things as you pretend to be....But also you believe in more things than you will confess.

WHY DO YOU EXAGGERATE? Are you prone to exaggerate? What another person mentions as ordinary, do you allude to as extraordinary.

Speaking of speed, do you claim sixty-five miles an hour when not traveling more than forty? If three pan handlers accost you you the way home, do you say a half a dozen stopped you within a short distance?

If you suffer pain, is it always "intense?"

If you mention the number of your friends, do you increase the number at least three fold?

In speaking of your own charity, do you enlarge the sum to at least twice the amount given?

In fact, do you overstate everything?

Certainly, you cannot believe the statements you make.

You would be incensed if called a perpetual liar.

Then why are you so unreliable in your statements? Do you gain pleasure and excitement from making everything bigger and better than it actually is?

If you should find out that you are called the crowd's biggest liar, how would it affect you?

It may be that you'd like that reputation.

FORTUNE DIED A YEAR AGO
Fortune died a year ago.
We thought to miss him so
Standing by his solemn heir
Long have ceased to shed a tear.

"Fortune dead and gone!" we sighed
"Lost are self-respect and pride!
Lost in happiness," but oh,
Now we know that isn't so.

Fortune the impostor, made
Us of care and loss afraid;
Told us having money meant
Peace of mind and heart's content.

By ourselves we've lived and found
Footings on a firmer ground:
Learned when trouble comes along
There is joy in being strong.

Fortune died a year ago!
It seemed hard to see him go,
But without him we have learned
How contentment can be learned.

After Hitler—What?
That Kennedy Appointment
Roosevelt Plans Cause Dissent

By LESLIE EICHEL

NEW YORK, July 7.—It is important to get the cold-blooded reaction of New York's business world to the German events.

The opinion there seems to be that turmoil will rule Germany for a long time. Hitler as a world power has passed. It is doubtful that he could even put through a war now to consolidate the various groups at home.

And Hitler is dead because Germany has no credit. Before it all ends, other nations will have to come to the succor of 85 million Germans. It was other nations which drove Germans, in desperation, into the hands of men who ruthlessly victimized them. The Versailles treaty stands indirectly charged by economists with the terrorist events of today.

New York financiers believe that the economic world has received a serious setback through Germany's condition. Germany has been a great trading nation, a nation whose prosperity is essential to world prosperity.

As charged, Hitler has been the tool of German industrialists, then the tool has wrecked the whole machine.

Blood begets blood. Hitler himself may fall before guns. Then what? The monarchists seem definitely out. But will a government with which the world can treat follow?

The financial world doubts it. The lot of the German people may continue to decline until they find a way out to freedom.

FRIENDSHIP

Ferdinand Pecora and Chairman Duncan U. Fletcher of the senate banking committee were startled and dismayed, of course, when President Roosevelt appointed Joseph F. Kennedy to the federal securities and trade commission. Indicated that he should be chairman.

But Kennedy was a staunch supporter of the president during the election campaign. More than that, his father-in-law, former Mayor F. Fitzgerald, of Boston, helped swing Massachusetts to Roosevelt, after the Bay State had favored Alfred E. Smith. Then,

when the handouts came, Fitzgerald was offered something that he considered so playunish he would not take it.

Kennedy, however, seemed hardly a man to be chosen to a commission to regulate stock gambling. Pecora brought out in his investigation that Kennedy held a 10-85th interest in Libby-Owens-Ford. Glass company stock pool which made a profit of \$400,000.

Kennedy, classified as a "New York and Boston financier," long has been a friend of Postmaster General James A. Farley, patronage hand-out.

PROBABLE FIGHT

President Roosevelt may find difficulties in the convening of the next congress—unless the Democrats score gains in the November election.

Conservative Democrats—chiefly in the south—are more than ever beginning to turn toward Conservative Republicans in congress. The social welfare-higher wage program does not please a group of senators that hail from south Atlantic states any more than it pleases a group that hails from New England.

On the other hand, posing senators in midwestern states are likely to be defeated.

Then there is an undefinable mass that believes the president has not gone far enough or fast enough, and that group is represented by the progressives and northern Democrats. The progressive vote is likely to be stronger rather than weaker.

The president, New York believes, is following a middle course.

BUSINESS NOT SO BAD

A considerable better feeling was apparent in New York following publication of the July review of the National City Bank of New York.

That report said that developments concerning the business outlook were encouraging, and that the summer recession was less than had been expected.

GREAT DAYS, July 8, 115—Peter the Hermit, the French monk who inspired the most extraordinary adventure of the Christian era, died in Belgium in a monastery he had established in fulfillment of a vow he made when he escaped a shipwreck.

Peter was the great preacher of the Crusades, and on one he led 30,000 Christians west—just not in a struggle with the Turks for the Holy Land but in battle with other Christians along the route whose towns they sought to plunder.

But there were other Crusades, and they nearly bankrupted Europe of money and fighting men before the Crusaders won Jerusalem, which they held only a few years.

Nevertheless, the Crusades served a useful purpose, quite a part from their object. They were the first stirring of the common people in European history. H. G. Wells calls the Peasants' Crusade (the first) the "birth of democracy."

IF IT COULD BE DONE

ONE of the plans for the future, evolved by our social engineers, is that which visualizes the moving of people from our congested centers of population out into the wide open spaces.

Mrs. Rosalie Sampinelli of somewhere near Washington square, New York, is to become Mary of the Vincelad Cottage, amid the hills of old Kentucky. All of which is fine, if it will work.

But there are some difficulties. In the first place the average city dweller, one born and raised on and near the cement pavements and by the busy roar of traffic, has some distorted ideas of rural life, and the kind of people who live there. The average native New Yorker thinks that civilization ends a few miles west of the Hudson river and that life would not be worth living away from the bright lights, the beach at Coney, and the rush and roar of subway traffic.

He wants none of the "hick country" for himself. He prefers the milk that comes in bottles to that which comes fresh from the cow—when he prefers milk at all—the smell of the city street to the order of newmown hay. Dwellers in other great cities are no different.

Of course it may be possible for our social engineers to change this psychology but we doubt it. The country boy naturally turns with longing eyes to the city, but few city boys look toward the country as a place for a career.

And if the psychology can be changed, just how good a farmer will one of these dwellers of the city canyons make? Of course he might be lodged in a small factory town but we doubt whether this would very much improve his esthetic spirit or his outlook on life, not to speak of the result for those already in the small town.

It may be and has been possible to put this over on the Russian worker, and move him about like a load of goods, but it is going to be a little more difficult in the United States. And those who think that tenement folks in the city are just waiting for a chance to rush out into the wide-open spaces to live are due to some disappointment.

Some of them might try it as a lark, but most of these would drift back to the bright lights as soon as Uncle Sam got tired putting up the money.

A POPULAR ISSUE

Representative John Ridley Mitchell, of Tennessee, stands a pretty good chance of going back to congress.

He has an issue that certainly should appeal to the favorable consideration of taxpayers.

Mr. Mitchell is a strong opponent of nepotism. He has met little success so far in his efforts to rid the federal government of this evil, but he has not given up the fight. And he is determined not to give it up, but to prosecute it with even more vigor in the future. He has announced that in the next session of congress he will widen the scope of his efforts. Instead of seeking merely to outlaw the practice of nepotism by congressmen, he will include in his proposal every governmental field. He says he will foster a bill to make it illegal for any federal official to appoint to office any relative within the third degree.

The matter is one that has received much attention in the last year or two. Wives, sons, daughters, nephews, cousins and others further removed in their relationship to congressmen are on the government payroll solely because of that relationship. One government official outside of congress is said to have placed five of his children in well-paying posts.

The recipients of patronage because of relationship rather than merit may, in many cases, earn their pay. This, however, does not make the practice less objectionable from the public standpoint.

Its evil generally is recognized and combined. Numerous posts so filled are not necessary. They constitute an unjust burden on taxpayers.

MEXICO IS AT PEACE

The election of General Lazaro Cardenas as president of Mexico, accomplished without a sign of trouble in an election day marked by total quiet, comes as a bright spot in the mess of internal nationalistic troubles now besetting what sometimes appears to be a large part of the world.

Long noted for such "internal dissensions" as assassinations, bloody elections and depredations of outlaw bands, the sturdy republic to our southwest has turned over a new leaf in recent years.

Trouble may range unchecked among her Latin-American neighbors and in European nations; but no more in Mexico. This man Cardenas, with a six-year plan that has many of the elements of stability, was elected for a term of equal length without the necessity for even one call for police and soldiers. And the Socialist candidate ran a poor third, with the Communist choice bringing up the rear of the procession, never in the contest at any stage.

It is surprising and highly pleasing to find this orderly functioning of governmental affairs in a land where trouble had reigned for so many years.

HOW MANY IDLE?

It is regrettable that there is no reliable method of counting or estimating the number of unemployed persons in the United States.

All through the depression we have been told by this and that organization or agency that so many persons were idle, but no two sets of figures were in agreement. There were large discrepancies.

The same condition still prevails. The American Federation of Labor recently placed the number of unemployed at slightly more than 10,000,000. At almost the same time, the National Industrial Conference board was telling the country that the idle numbered a little less than 8,000,000.

Which is correct? Nobody can say with certainty. The department of labor, if called on for an estimate, probably would give an entirely different set of figures.

In the absence of any reliable information on the point, the country will hope for the best and believe that the number of idle is steadily if gradually declining, this belief being based on observable improvement in the general industrial situation.

YOU.....YOU.....YOU
SOME MINOR disappointment—like having it rain when you planned a picnic—is a great annoyance to you and you complain fitfully. You face a major disappointment, manfully drawing upon some hidden reservoir of strength that is within us all, though we tap it rarely.

You wonder what you would do if you were ever greatly tempted to steal a great sum of money, without possibility of being detected....or if you found a big package of bills on the street....You hope you'd do the right thing, but you wonder how much you'd be tempted.

You wish sometimes, that you didn't have to work, but you find it difficult to plan a life without work.

You put up your hand for a street car, but it goes right by without stopping....You are furious. You plan revenge. You swear you'll report that motorman. You'll punish him as he deserves....But you don't do it. Somehow you don't want it on your conscience that you caused him to lose his job....Or perhaps your hot impulses are no more enduring than some of your gentler ones.

You may boast that you have a sense of humor or that you are a good judge of human nature, but never that you have a kind heart.

You don't know where the money goes.

You tell your farmer friend that you envy him his life in the country. He tells you about pests, frost, droughts, mortgages low prices, taxes. You ask him if he'd rather live in the city, and he says "NO!"

You abuse city life to him and he asks you if you would really like to live on a farm every day in the year, and this time YOU say "No!"

When you have a pain in your right side you wonder if it's appendicitis.

You aren't as certain of most things as you pretend to be....But also you believe in more things than you will confess.

WHY DO YOU EXAGGERATE
Are you prone to exaggerate?
What another person mentions as ordinary, do you allude to as extraordinary.

Speaking of speed, do you claim sixty-five miles an hour when not traveling more than forty?

If three pan handlers accost you on the way home, do you say a half a dozen stopped you within a short distance?

If you suffer pain, is it always "intense."

If you mention the number of your friends, do you increase the number at least three fold?

In speaking of your own charity, do you enlarge the sum to at least twice the amount given?

In fact, do you overstate everything?

Certainly, you cannot believe the statements you make.

You would be incensed if called a perpetual liar.

Then why are you so unreliable in your statements?

Do you gain pleasure and excitement from making everything bigger and better than it actually is?

If you should find out that you are called the crowd's biggest liar, how would it affect you?

It may be that you'd like that reputation.

Pay Out \$2,000 On Post Office Project Friday

Federal Job Brings Cash To
Nearly 50 Workers;
Murphy Says

On Friday a payroll of approximately \$2,000 was again released into New Castle business channels when almost 50 workmen, employed on the city's new post office project, received their weekly stipends, George J. Murphy, superintendent-in-charge for the A. W. Kutsche company, announced today.

Mr. Murphy said that about half, or \$1,000, was paid out direct to about 35 workers by the Kutsche concern while sub-contractors paid out the remaining \$1,000 to the rest. He said similar pays are being made weekly.

Beginning Monday, or soon after, Murphy said, the steam cleaning and waterproofing of the outside stone will commence. The waterproofing was authorized some time ago and is expected to give better protection for the sandstone and limestone against the battering of the elements.

Installation of glass in the building's windows will also be started Monday.

On Friday workmen finished their job of waterproofing the concrete roof.

If present progress continues, it was indicated, plasterers will go to work in two weeks.

DESIGNING

It isn't difficult to purchase quality blooms. Any florist can get the choice flower if he will pay the price, but art in arranging them after they have been purchased makes the difference between an ordinary bouquet and a thing of beauty. We take no credit because we get the choice flowers of the seasons, that's only good business. We do point with pride to the arrangement of flowers and design of bouquets. That's art.

WASHINGTON, July 7.—American Ambassador William E. Dodd at Berlin has asked the German government whether it intends to grant the same treatment accorded British investors, and if not—why not?

This was learned today as the State Department prepared to make a vigorous protest to Germany if equal treatment is not accorded American bondholders.

The German foreign office failed to make any immediate reply at the time Ambassador Dodd made his inquiry.

This government now is awaiting a response from Germany before taking action.

Following Britain's threat to impose German trade credit unless Germany repaid the intention to proclaim a complete moratorium on all foreign debt payments, the German government agreed to make full interest payments on the Dawes and Young plans loans for a six months period.

In return for this promise the British agreed not to apply the drastic retaliatory powers approved by Parliament and also accepted the German offer to fund credit in full or pay 40 percent cash and other medium and long term debts.

This government considers equal treatment is due American investors, both under the most-favored-nation treaty and because of the fact American investors are the target holders of German bonds, holding approximately \$1,930,000,000 of them.

(International News Service)
SOMERSET, Pa., July 7.—Roaring unchecked as firemen, delayed indirectly by the fire itself, were unable to reach the scene, flames of an undetermined origin destroyed a two-story plant of the Associated Gas and Electric Company at Rockwood, near here, early today.

(International News Service)
SOMERSET, Pa., July 7.—Roaring unchecked as firemen, delayed indirectly by the fire itself, were unable to reach the scene, flames of an undetermined origin destroyed a two-story plant of the Associated Gas and Electric Company at Rockwood, near here, early today.

Lack of electric current due to the fire crippled gasoline pumps in Rockwood. The firemen, in turn, in need of gasoline for their trucks, were delayed in fueling to reach the scene.

Alone in the building, Hal Miller, of Rockwood, a switchman, discovered flames on the second floor of the plant, a supplementary unit.

Pay Out \$2,000 On Post Office Project Friday

Federal Job Brings Cash To Nearly 50 Workers; Murphy Says

On Friday a payroll of approximately \$2,000 was again released in to New Castle business channels when almost 50 workmen, employed on the city's new post office project, received their weekly stipends, George J. Murphy, superintendent-in-charge for the A. W. Kutsche company, announced today.

Mr. Murphy said that about half, or \$1,000, was paid out direct to about 35 workers by the Kutsche concern while sub-contractors paid out the remaining \$1,000 to the rest. He said similar pays are being made weekly.

Beginning Monday, or soon after, Murphy said, the steam cleaning and waterproofing of the outside stone will commence. The waterproofing was authorized some time ago and is expected to give better protection for the sandstone and limestone against the battering of the elements.

Installation of glass in the building's windows will also be started Monday.

On Friday workmen finished their job of waterproofing the concrete roof.

If present progress continues, it was indicated, plasterers will go to work in two weeks.

JACK EARLE and MAJOR MITE

Ringling Bros. and Barnum & Bailey Circus Midget Beals Giant at Penny-Ante

Among the 1600 people with the Ringling Bros. and Barnum & Bailey Combined Circus are two most conspicuously distinctive persons—Jack Earle, the cowboy giant, who stands 8 feet 7 inches without benefit of his high-heeled boots, and Major Mite, who gazes out upon this earthly scene from a height of 23 inches.

It has been said that opposites attract, and that may be so, but it is penny-ante poker that has made pals of Jack and the Major. They have been playing steadily for several seasons and the major is just 37 cents ahead. In the picture, he is due for another win, as he is set with four aces, has passed the draw and has Jack up in the air.

Jack Earle, the world's tallest man, and Major Mite, the smallest man who ever lived, are members of the great international congress of freaks with the big show. This year, the Ringling Bros. and Barnum & Bailey Circus has assembled four trains of double-length steel railroad cars of features—marvelous new foreign acts, imported thrillers, and 800 of the world's most famous circus stars. There are, besides 50 elephants, 1,000 menagerie animals, including a herd of the largest and tallest giraffes in captivity, a baby giraffe and 700 horses.

The greatest show on earth will exhibit in New Castle, Friday, July 13.

Performances will be given at 2 and 8 p. m., the doors opening an hour earlier.

On Court House Hill

County Treasurer William O. Pitts collected \$5,622.02 on Thursday, as compared to \$2,371.18 on Tuesday. It was distributed as follows: County, \$2,371.78; state, \$215.34; poor, \$1,158.90.

Sears and Roebuck have filed a writ of replevin at the prothonotary's office against Rose L. and J. W. Patterson, to secure possession of a washing machine.

Credit Service, Incorporated, of Pennsylvania has issued an attachment against Elizabeth Gray, surviving obligor, in which the sheriff is directed to attach any money that may be due the defendant from the Lawrence Savings and Trust Company.

S. O. Wright has filed an action in ejectment at the prothonotary's office against Frank and Mary Erino, in which it is sought to gain possession of a property located at 111 Franklin avenue, Ellwood City, which defendants hold on a lease.

Letters of administration have been issued by the register and recorder to the estate of Alexander H. Fulton in the estate of Katherine E. Fulton who died in Pittsburgh, has been filed at the register and recorder's office here.

Albert L. Johnson has filed a suit at the prothonotary's office against Robert A. Eckles in which plaintiff asks for \$1000 damages as a result of an automobile accident on the New Wilmington road. The cars collided at the intersection of Glenmore boulevard and the Wilmington road. Eckles brought suit against Johnson, but a non-suit was granted. Motion to take off the non-suit was later argued before court but an opinion has not yet been handed down.

Title searchers for the Home Owners Loan Corporation are giving the register and recorder's office some appearance of its old time activity. The local office of the corporation is now functioning in a very systematic manner and loans are being put through much faster than in the earlier days of the corporation. There never has been any delay in the local offices. The delay has been caused after the papers left here.

Ewing Laporte of Pittsburgh, who has been appointed new state manager of the corporation, announces that loans must be speeded up. He is about to begin a tour of inspection of district offices with that end in view. He announces that he will study ways of decentralizing HOLC in the state, probably making the larger offices semi-independent units that can close loans to distressed home owners without sending the applications through the state office in Philadelphia.

EAST BROOK

All day long there were refreshments on the ground for visitors. The East Brook organization is planning a homecoming celebration for Labor Day.

Tennis matches were played throughout the day and many of the participants also enjoyed horseshoe pitching.

At noon a delicious dinner was served in the hall of East Brook school by the ladies of the athletic organization. The ball team was their guests.

The "glorious Fourth" proved to be exactly that at the community picnic and sports carnival held at East Brook on Wednesday under the auspices of the East Brook Athletic Association.

According to plans announced at the event, single tennis matches are being arranged by the means of drawing names. Men and women may take part. Those interested are asked to be at the court tonight.

Heading the arrangements were committees, of which the following were supervisors: picnic, Mrs. Kennedy; sports, "Hub" Hart; baseball, Harold Mayberry; tennis, Edwin McAnlis; horseshoes, John Reiber; softball, Mary Sullivan; refreshments, O. M. Bilger, and publicity, Gail McAnlis.

A large crowd enjoyed the fine dinner, the baseball games and the tennis matches and other events. The visiting ball team, the Pontiacs, were victorious both in the morning and afternoon, in the first game by a 5-0 score and in the second 6 to 5. In the second there was a 5-5 tie at the beginning of the ninth, but the Pontiacs crashed in another which gave them victory.

Size Doesn't Count Here

JACK EARLE and MAJOR MITE

Ringling Bros. and Barnum & Bailey Circus Midget Beats Giant at Penny-Ante

Among the 1600 people with the Ringling Bros. and Barnum & Bailey Combined Circus are two most conspicuously distinctive persons—Jack Earle, the cowboy giant, who stands 8 feet 7 inches without benefit of his high-heeled boots, and Major Mite, who gazes out upon this earthly scene from a height of 23 inches.

It has been said that opposites attract, and that may be so, but it is penny-ante poker that has made pals of Jack and the Major. They have been playing steadily for several seasons and the major is just 37 cents ahead. In the picture, he is due for another win, as he is set with four aces, has passed the draw and has Giant Jack up in the air.

Jack Earle, the world's tallest man, and Major Mite, the smallest man who ever lived, are members of the great international congress of freaks with the big show. In this year, the Ringling Bros. and Barnum & Bailey Circus has assembled four trains of double-length steel railroad cars of features—marvelous new foreign acts, imported thrillers, and 800 of the world's most famous circus stars. There are, besides 50 elephants, 1,009 menagerie animals, including a herd of the largest and tallest giraffes in captivity, a baby giraffe and 700 horses.

The greatest Show on Earth will exhibit in New Castle, Friday, July 13.

Performances will be given at 2 and 8 p. m., the doors opening an hour earlier.

On Court House Hill

County Treasurer William O. Pitts collected \$3,692.02 on Thursday, as compared to \$2,371.18 on Tuesday. It was distributed as follows: County, \$2,317.78; state, \$215.34; poor, \$1,158.90.

Sears and Roebuck have filed a writ of replevin at the prothonotary's office against Rose L. and J. W. Patterson, to secure possession of a washing machine.

Credit Service, incorporated, of Pennsylvania has issued an attachment against Elizabeth Gray, surviving obligor, in which the sheriff is directed to attach any money that may be due the defendant from the Lawrence Savings and Trust Company.

S. O. Wright has filed an action in ejectment at the prothonotary's office against Frank and Mary Erino, in which it is sought to gain possession of a property located at 111 Franklin avenue, Ellwood City, which defendants hold on a lease.

Letters of administration have been issued by the register and re-

cor to the Lawrence Savings and Trust Company in the estate of James McLaren, late of this city.

In the estate of Giuseppe Sacco letters of administration C. T. A. have been issued to Carm Sacco of this city.

In the estate of Edward Caplan letters of administration have been issued to Teresa Caplan.

A certificate showing that letters have been issued to Alexander H. Fulton in the estate of Katherine E. Fulton who died in Pittsburgh, has been filed at the register and recorder's office here.

Albert L. Johnson has filed a suit at the prothonotary's office against Robert A. Eckles in which plaintiff asks for \$1000 damages as a result of an automobile accident on the New Wilmington road. The cars collided at the intersection of Cienmore boulevard and the Wilmington road. Eckles brought suit against Johnson, but a non-suit was granted. Motion to take off the non-suit was later argued before court but an opinion has not yet been handed down.

Title searchers for the Home Owners Loan Corporation are giving the register and recorder's office some appearance of its old time activity. The local office of the corporation is now functioning in a very systematic manner and loans are being put through much faster than in the earlier days of the corporation. There never has been any delay in the local offices. The delay has been caused after the papers left here.

Ewing Laporte of Pittsburgh, who has been appointed new state manager of the corporation, announces that loans must be speeded up. He is about to begin a tour of inspection of district offices with that end in view. He announces that he will study ways of decentralizing HOLC in the state, probably making the larger offices semi-independent units that can close loans to distressed home owners without sending the applications through the state office in Philadelphia.

AN EXPRESSION OF APPRECIATION

With the outstanding success of the Tin Workers' Picnic, held Saturday, June 30, in Cascade Park now a pleasant memory, the employees of the Shenango and New Castle Works of the American Sheet and Tin Plate Company wish to express their very deep appreciation of the co-operation accorded them in making the picnic the success it was. Because they want the city and the county to know of that appreciation, they take this means of making it public.

The success of the Tin Workers' Picnic was not an individual nor a personal success. It was the result of the finest piece of civic teamwork seen in New Castle in some time, it was the cumulative efforts of the workers themselves, the merchants and the citizenry that made it possible. It was a splendid example of what can be done when many minds work toward the same objective.

Not only are the tinworkers pleased to acknowledge the debt of gratitude they owe, but they are proud of the fact that New Castle men and women worked so wholeheartedly with them in making the day what it was. This public appreciation will be read and remembered but temporarily perhaps, but the tin workers themselves can never forget the kindnesses, the courtesies and the consideration accorded them in the plans and culmination of the Tin Workers' Picnic.

Listed below will be found the names of the merchants who donated prizes for the day and the names of organizations and individuals that by their efforts in various fields, aided in the success of the day. An effort has been made to list everyone who assisted. If by any mischance a name has been omitted it is entirely unintentional.

OTHERS WHO AIDED

In addition to the merchants who donated prizes for the day, the tin workers are under obligation to the following organizations and individuals who in their particular field of endeavor rendered every possible service.

The News Company, Fred L. Rentz, president, and J. F. Rentz, general manager, who co-operated to the fullest extent. George W. Conway, editor, whose advice and counsel aided so materially. Bart Richards, who handled the publicity attendant to the picnic.

The city officials, Mayor Charles B. Mayne and Chief of Police John F. Haven, for their efficiency in handling traffic. City Councilmen D. O. Davies, Joseph D. Alexander, A. A. Hoyland and B. F. Butler, for their co-operation in the use of Cascade Park.

Sheriff Edward D. Pritchard and his deputies, who lent their aid, not in the sphere

of peace officers, but as aides in handling the crowd.

C. C. Coulthard, superintendent of Cascade Park; Guy J. Wadlinger, chairman of the Park Commission, and the members of the Commission, for their support and assistance. Also the employees of Cascade Park, who spared no effort in helping to make the day a success.

The New Castle Chamber of Commerce for its co-operation and aid in the formation of the picnic plans.

The New Castle Electric Street Railway for the efficient transportation facilities in moving the crowd to and from the park.

And finally, the citizenry in general, who by their presence and their encouragement proved to the tin workers that they were interested in the success of the day.

American Sheet and Tin Plate Company.**

AN EXPRESSION OF APPRECIATION

With the outstanding success of the Tin Workers' Picnic, held Saturday, June 30, in Cascade Park now a pleasant memory, the employees of the Shenango and New Castle Works of the American Sheet and Tin Plate Company wish to express their very deep appreciation of the co-operation accorded them in making the picnic the success it was. Because they want the city and the county to know of that appreciation, they take this means of making it public.

The success of the Tin Workers' Picnic was not an individual nor a personal success. It was the result of the finest piece of civic teamwork seen in New Castle in some time, it was the cumulative efforts of the workers themselves, the merchants and the citizenry that made it possible. It was a splendid example of what can be done when many minds work toward the same objective.

Not only are the tinworkers pleased to acknowledge the debt of gratitude they owe, but they are proud of the fact that New Castle men and women worked so wholeheartedly with them in making the day what it was. This public appreciation will be read and remembered but temporarily perhaps, but the tin workers themselves can never forget the kindnesses, the courtesies and the consideration accorded them in the plans and culmination of the Tin Workers' Picnic.

Listed below will be found the names of the merchants who donated prizes for the day and the names of organizations and individuals that by their efforts in various fields, aided in the success of the day. An effort has been made to list everyone who assisted. If by any mischance a name has been omitted it is entirely unintentional.

A Great Woman Dead.

A German Puzzle.

Britain Can Collect.

Look Up At The Swan.

By ARTHUR BRISBANE

MME. CURIE, with her husband, co-discoverer of radium, is dead, after winning the Nobel prize twice, the only person ever to be thus honored.

Mme. Curie's work answers doubting gentlemen who wonder "whether a woman's intellect can equal that of a man." It is believed that Mme. Curie's death may have been hastened by the effects of constant radiation, to which she was exposed in her work.

The ordinary feeble human brain, male or female, cannot understand what the word radium means. You admire a human engineer whose machine will run for twenty years, with moderate care and repairing.

Consider the engineering skill locked up in radium. One gram of radium costs \$50,000, which seems a good deal of money. But that radium will continue throwing out energy for two thousand years, and then be only half exhausted.

The cost of using the radium-engine would be about one cent for twenty days, or eighteen and one-quarter cents per year. That is indeed "cheap and efficient power production," energy inconceivable for one-twentieth of a cent per day for 24 hours.

NEWS FROM Germany this day is difficult to understand. If the Nazi government is not entirely silly, why should it offend sentimentality and decency by stopping the funeral of General von Schleicher and his wife, included among victims of recent political massacres?

Why should it order cremation of the body of Dr. Erich Klausener, leader of the Catholic Action Society, another victim? Cremation is forbidden by the Catholic church, and to compel the cremation of a prominent Catholic is most offensive to millions of German Catholics.

A number of the so-called Nazi "traitors" are alleged to have stood before the firing squad, crying out at the last moment:

"I am innocent, hell, Hitler!"

Why, "Hell Hitler!" by whose order they were dying, seems difficult to explain, but that sort of thing is not new.

You may learn from Waliszewski's history of Ivan the Terrible that numbers of men, tortured to death by order of the most horrible monster, died praying for "the Holy Czar Ivan."

THE BRITISH know how to collect money due them. Germany announced a moratorium. She would not pay interest or principal to the British and others. The British issued a few threats and one ultimatum, "with teeth in it." What the result was is not known yet, but Germany changed her mind and instead of paying nothing to England for six months, immediately promises to pay "full interest in sterling

during the next six months to British holders of Dawes and Young loan bonds."

It is said the United States will now "press for a similar settlement." The United States probably will not get it, for this country is not taken seriously abroad, except as a LENDING nation. When it comes to collecting, we are asked PLEASE to remember that we remind everybody of Shylock, and ought to be ashamed of ourselves.

JUST NOW, in the "summer milky way," the swarm of stars just above your head, you may see the "cygnus cloud," or the "swan," just above your head a little to the north. Individual specks of light in the cloud are giant suns, many infinitely bigger than our own sun.

Mr. Walter Baade, boss of the one hundred-inch telescope at the Carnegie Institute, Mount Wilson Observatory, sees, through the cloud, spiral nebulae "outside universes," turning slowly "like enormous fourth of July pinwheels."

The milky way itself, in which our sun looks like a faint speck of light, seen from other solar systems, is believed to be turning also, another cosmic pinwheel.

The beautiful "swan," which you may see tonight if the sky is clear, is more than fifty quadrillion miles from the earth, or, in accurate figures, 50,498,000,000,000 miles. The light that strikes your eye when you see the "swan" has been traveling through space for more than eight thousand years, and light travels more than six trillion miles in a year.

This is an interesting universe. Anyone interested only in this little earth is like a snapping turtle, living in the mud at the bottom of a small pond caring nothing about what goes on outside of that pond.

HOW DEAD we are, when we are dead, Calvin Coolidge was born July fourth, and on this fourth, Boy Scouts gathered at his grave on a hillside in the cemetery at Plymouth, Vt. They placed a wreath on the grave, and Major Lee, United States Army chief in Vermont, also brought a wreath, as representative of President Roosevelt. American flags were taken to the grave and taken away again.

Except for the Boy Scouts and a few others, nobody knew anything about it. The rest of the world was setting off firecrackers, pinwheels, roman candles, skyrockets and bombs.

WE ARE very dead; in America, especially, we are very dead indeed, a short time after we go. But what wonderful peace comes with a small grave on a hillside. Dinah Muloch-Craig put it very nicely in verse:

"Two hands upon the breast, at labor's done; Two pace feet crossed in rest, the race is won."

Or if it is not won, at least it is ended, and worry ends with it.

YOU READ that in the federal prison at Atlanta, Mr. Al Capone and other convicts were entertained this Fourth of July by a "two-hour boxing show." The prize-fighters were convicts by Capone and others were exclusively cigar betters, money not allowed.

That scene, convicts of all kinds watching criminals in the prize-ring assaulting each other, applauding the hardest blows, should be preserved for future generations. It represents the effort of a highly intelligent civilized government to reform criminals.

If there should be no convict prize-fighters available on another occasion, it might be arranged to amuse the convicts with a dog-fight, badger-drawing, cock-fight or rat-killing match between terriers.

RECENTLY a young lady registrar, possessing authority, refused to issue a marriage license for a man of 32 and a woman of 72. It seemed to her "not quite right."

In New York yesterday, Siamese twins, young ladies alleged to be irrevocably fastened together by nature, appeared to ask for a marriage license. Violet, the right-hand side of the twins, wanted the license, that she might marry Maurice L. Lambert. The city's legal authorities decided that "the issuance of a license under the circumstance would be illegal."

It was not said, but it was understood, that the objection was that to allow one Siamese sister to be married, with the other not married, would be immoral.

The other sister, Daisy, announced her intention to be married in six months to Harry Mason of England, "the welterweight champion." It is just possible, of course, that the dear little Siamese twins care about advertising more than about marriage, but that was what happened.

A Great Woman Dead.

A German Puzzle.

Britain Can Collect.

Look Up At The Swan.

By ARTHUR BRISBANE

MME. CURIE, with her husband, co-discoverer of radium, is dead, after winning the Nobel prize twice, the only person ever to be thus honored.

Mme. Curie's work answers doubting gentlemen who wonder "whether a woman's intellect can equal that of a man." It is believed that Mme. Curie's death may have been hastened by the effects of constant radiation, to which she was exposed in her work.

The ordinary feeble human brain, male or female, cannot understand what the word radium means. You admire a human engineer whose machine will run for twenty years, with moderate care and repairing, at the end of twenty years, the best machines are worn out.

Consider the engineering skill locked up in radium. One gram of radium costs \$50,000, which seems a good deal of money. But that radium will continue throwing out energy for two thousand years, and then be only half exhausted.

The cost of using the radium-engine would be about one cent for twenty days, or eighteen and one-quarter cents per year. That is indeed "cheap and efficient power production," energy inconceivable for one-twentieth of a cent per day for 24 hours.

NEWS FROM Germany this day is difficult to understand. If the Nazi government is not entirely silly, why should it offend sentiment and decency by stopping the funeral of General von Schleicher and his wife, included among victims of recent political massacres?

Why should it order cremation of the body of Dr. Erich Klausener, leader of the Catholic Action Society, another victim? Cremation is forbidden by the Catholic church, and to compel the cremation of a prominent Catholic is most offensive to millions of German Catholics.

A number of the so-called Nazi "traitors" are alleged to have stood before the firing squad, crying out at the last moment:

"I am innocent; hell, Hitler."

Why, "Hell Hitler!" by whose order they were dying, seems difficult to explain, but that sort of thing is not new.

You may learn from Walliswieski's history of Ivan the Terrible that numbers of men, tortured to death by order of the most horrible monster, died praying for "the Holy Czar Ivan."

THE BRITISH know how to collect money due them. Germany announced a moratorium. She would not pay interest or principal to the British and others. The British issued a few threats and one ultimatum, "with teeth in it." What the result was is not known yet, but Germany changed her mind, and instead of paying nothing to England for six months, immediately promises to pay "full interest in sterling

during the next six months to British holders of Dawes and Young loan bonds."

It is said the United States will now "press for a similar settlement." The United States probably will not get it, for this country is not taken seriously abroad, except as a LENDING nation. When it comes to collecting, we are asked PLEASE to remember that we remind everybody of Shylock, and ought to be ashamed of ourselves.

JUST NOW, in the "summer milky way," the swarm of stars just above your head, you may see the "cygnus cloud," or the "swan," just above your head a little to the north. Individual specks of light in the cloud are giant suns, many infinitely bigger than our own sun.

Mr. Walter Baade, boss of the one hundred-inch telescope at the Carnegie Institute, Mount Wilson Observatory, sees, through the cloud, spiral nebulae "outside universes," turning slowly "like enormous Fourth of July pinwheels."

The milky way itself, in which our sun looks like a faint speck of light, seen from other solar systems, is believed to be turning also, another cosmic pinwheel.

"The beautiful 'swan,' which you may see tonight if the sky is clear, is more than fifty quadrillion miles from the earth, or, in accurate figures, 50,496,000,000,000 miles. The light that strikes your eye when you see the 'swan' has been traveling through space for more than eight thousand years, and light travels more than six trillions of miles in a year.

This is an interesting universe. Anyone interested only in this little earth is like a snapping turtle, living in the mud at the bottom of a small pond caring nothing about what goes on outside of that pond.

HOW DEAD we are, when we are dead. Calvin Coolidge was born on July fourth, and on this fourth, Boy Scouts gathered at his grave on a hillside in the cemetery at Plymouth, Vt. They placed a wreath on the grave, and Major Lee, United States Army chief in Vermont, also brought a wreath, as representative of President Roosevelt. American flags were taken to the grave and taken away again.

Except for the Boy Scouts and a few others, nobody knew anything about it. The rest of the world was setting off firecrackers, pinwheels, roman candles, skyrockets and bombs.

WE ARE very dead; in America, especially, we are very dead indeed, a short time after we go. But what wonderful peace comes with a small grave on a hillside. Dinah Mulock Craik put it very nicely in verse:

"Two hands upon the breast, and labor's done;
Two pace feet crossed in rest, the race is won."

Or if it is not won, at least it is ended, and worry ends with it.

YOU READ that in the federal prison at Atlanta, Mr. Al Capone and other convicts were entertained this Fourth of July by a "two-hour boxing show." The prize-fighters were convicts; bets by Capone and others were exclusively cigarette bets, money not allowed.

That scene, convicts of all kinds watching criminals in the prize-ring assaulting each other, applauding the hardest blows, should be preserved for future generations. It represents the effort of a highly intelligent civilized government to reform criminals.

If there should be no convict prize-fighters available on another occasion, it might be arranged to amuse the convicts with a dog-fight, badger-drawing, cock-fight or rat-killing match between terriers.

RECENTLY a young lady registrar, possessing authority, refused to issue a marriage license for a man of 32 and a woman of 72. It seemed to her "not quite right."

In New York yesterday, Siamese twins, young ladies alleged to be irrevocably fastened together by nature, appeared to ask for a marriage license. Violet, the right-hand side of the twins, wanted the license, that she might marry Maurice L. Lambert. The city's legal authorities decided that "the issuance of a license under the circumstance would be illegal."

It was not said, but it was understood, that the objection was that to allow one Siamese sister to be married, with the other not married, would "not be moral."

The other sister, Daisy, announced her intention to be married in six months to Harry Mason of England, "the welterweight champion." It is just possible, of course, that the dear little Siamese twins care about advertising more than about marriage, but that was what happened.

All-Star Big League Teams Are Selected

All-Star American and National League Game At New York Tuesday

TERRY CRONIN NAMED MANAGERS

By DAVIS J. WALSH
International News Service Sports Editor

NEW YORK, July 7.—Following a night of meditation and prayer, Managers Bill Terry and Joe Cronin, in charge of the All-Star major league game here on Tuesday next, managed to announce brokenly and with a pathetic little catch in the breath this morning that finally they have been able to reach a decision on the starting lineups of the American and National League teams. It probably was the same decision they reached this day a week ago but to confess all at that time would neither have been good "theatre" nor good sense and, anyhow, what's a little horse play among friends?

Real All-Stars.
Therefore, be it known that, after thinking very deeply, it has been decided that the sterling young men of the profession will go to bat as follows:

American League.
Gehrig, Detroit Tigers, 2b.
Manush, Washington Senators, 1f.
Ruth, New York Yankees, rf.
Gehrig, New York Yankees, 1b.
Higgins, Philadelphia Athletics, 3b.
Simmons, Chicago White Sox, cf.
Cronin, Washington Senators, c.
Dickey, New York Yankees, p.
Gomez, New York Yankees, p.

National League.
Frisch, St. Louis Cardinals, 2b.
Traynor, Pittsburgh Pirates, 3b.
Klein, Chicago Cubs, or Medwick, St. Louis Cardinals, 1f.
Ott, New York Giants, or Cuyler, Chicago Cubs, rf.
Berger, Boston Braves, cf.
Terry, New York Giants, 1b.
Jackson, New York Giants, ss.
Hartnett, Chicago Cubs, or Lopez, Brooklyn Dodgers, c.
Hubbell, New York Giants, p.

These are, without doubt, the best possible teams and there is no comment on either that seems exactly suitable, except maybe to say that, of all the teams in the National League, Mr. Terry seems to like his pennant team best. He has named his Mr. Jackson as the starting shortstop, although Vaughan, of the Pirates, hits seventy or eighty points higher. He also originally named his Mr. Moore for the starting outfield but had to recant when the young man developed a lame arm. This reinstated Cuyler but only as a possible alternate for Mr. Terry's Mr. Ott in right field.

Hubbell-Gomez.
As for Mr. Terry's Mr. Hubbell, he naturally couldn't miss as the starting pitcher any more than Gomez could on the American League list. On their records, these left handers are the best two pitchers in baseball and just make it even, both have been tottering a little during recent weeks.

The Klein-or-Medwick, Ott-or-Cuyler and Hartnett-or-Lopez combinations indicate that Mr. Terry is not yet ready to become really confidential about his plans. In fact, he's being very mysterious and stealthy.

As he becomes a world's champion thinker, but he's inclined to agree with the odds of Tom Kearney, of St. Louis, who rates the American League at 7-10 and the National League at even money.

County League Teams Play Today

Mahoning and the Polish Nationals will play at Glasser field and West Pittsburgh will play Bessemer at West Pittsburgh today in the Lawrence County Baseball league on tomorrow Wampum will play Bessemer at Bessemer and West Pittsburgh will oppose Mahoning on the latter's field, according to the schedule which has been revised.

It's hard to guess what Huey Long's driving at, but apparently he's planning to use his brains sparingly and make them last a lifetime.

Wilson Allows But Four Hits As Mates Hit Sargent Hard To Take Victory

Clifton Flats baseball team with Wilson, their mound ace in the box, allowing only four hits defeated the Coaltown team 9 to 4 in an Independent league game last night, at the Coaltown field. It was the 14th consecutive victory for the Flats team.

Wilson whiffed six batters, and Sargent fanned eight men. The Flats found Sargent for 13 hits, with F. VanEman, R. Neyman having home runs for the Flats and Sargent hit a round-tripper for the losers.

Heavy Hitting Features Game

Big League Batters Go After Pitchers Yesterday And Swat Ball Hard

PIRATES DROP TO CHICAGO CUBS 9-1

By PAT ROBINSON
International News Service Sports Writer

NEW YORK, July 7.—Pitching, says Billy Terry, is 35 per cent of a ball game, but after nothing what Van Mungo—the Dodgers' one-man pitching staff—did to his Giants yesterday, Bill probably will be willing to boost his estimate another 10 per cent.

Mungo gave only six hits, fanned eight and breezed in, 11 to 2. For once the Dodgers not only gave Mungo perfect support but they fell on Bowman and Smith for 18 assorted wallops, the best of which was Sambo Leslie's homer with every base occupied.

Down in Philadelphia there was a ghastly parade of throwers and when the Braves had 11 runs and 23 hits and the Phillies 13 runs, 18 hits and five juicy errors.

Lee Hits Three.
Hal Lee, who is a reformed Dodger and Philly, woke up long enough to blow himself to three home runs.

Guy Bush of the Cubs was another who turned in a good game. The sympathy Mississippi plan held the Pirates to five hits while his buddies pounded Hoyt and Suhr's homer robbed Guy of a shut-out.

But look at what happened in St. Louis where even the Reds could step out and score seven runs in the first inning. But that was only the beginning. Folks, and when the sl ugter was over, the Cards had 16 hits and 15 runs and the Reds 15 hits and 16 runs.

Over in the other league rain spoiled what might have developed into quite a pitching duel between Bump Hadley of the Browns and Vic Sorrell of the Tigers. The Tigers won, 4 to 3, in five innings after Hadley had given only three hits and Sorrell but four.

Get 20 Hits.
The Red Sox hammered a lot of young fellows Connie Mack is trying to develop into pitchers for 20 hits and an 18 to 6 verdict.

Starting pitchers also got the gate in the Yankee-Senators debate, which the latter won, 9 to 8, despite Lou Gehrig's 24th home run. Lou drove in three more runs, making ten in two days, and a season total of 61.

The White Sox trimmed the Indians, 7 to 5 to wind up an imperfect day but, as they say on the lower east side of New York—"Phooey on such a pitching."

Ryantown Trips Rose Point 6-1

Davies In Rare Form And Allows But Three Hits As Ryantown Wins

Ryantown with Davies their star moundmen doing yeoman work holding the hard hitting Rose Points to three hits, took a 6 to 1 Independent league victory last night at the Ryantown field. The Ryantown team found Farrell for only six hits, but made them count. Bunnell was the batting hero of the game with a triple and double, while Kerr and Davies also hit for extra-bases. Ryantown was the best hitter in the Rose Point lineup.

The summary—

Jess Willard Pays Visit Here

Former World's Heavyweight Champion And Family Visit Miss Evans

JESS EN ROUTE TO NEW ENGLAND STATES

Jess Willard, heavyweight who wrestled the world's championship from Jack Johnson in Havana almost a score of years ago, with Mrs. Willard and one of their sons, Allen, 18, spent yesterday and part of today with Mrs. Willard's aunt, Miss Margaret Evans, who resides along the Mt. Jackson road near the seventh ward.

The former Kansan, who took up a residence in California after he decrowned Johnson, is en route from southern states to New England states. During the past few months he has been refereeing wrestling matches. Willard reports that wrestling is going over bigger than boxing who visits the former champion were Jimmie Dime, Tom McMahon and Ed. Fritz, sports editor of The News. All of them have known Willard since the days before he won the championship.

Willard and McMahon boxed at Youngstown before Willard went West. Dan Dalley also boxed Jess at Buffalo.

The big fellow shows practically none of the earmarks of the battles he went through. Since leaving the ring he has been engaged in the real estate business and for a time operated a big meat market in Los Angeles. Recently he has found that his services as a wrestling referee were in demand. Wrestling referees were in demand. Wrestling referees were in demand.

When Jack Johnson's name was mentioned and it was said that Jack was heading a colored orchestra, the big boy smiled and said: "Jack will get along"; and in mentioning the fight between Willard and Jack Dempsey at Toledo Tom McMahon said:

"If you had had a couple of smart seconds in your corner that day you might not have lost the title, as Dempsey got out of the ring."

"You're right," replied Willard, who was in from condition when he battled the rip-smashing Dempsey.

Willard hasn't seen Maxie Baer fight recently, but he has seen Art Lesky, a new heavyweight who recently beat King Levinsky on the coast.

Big Jess believes that Art will have to grow a little more sturdy, and agreed with Jimmie Dime that there are few "fighters" left.

Dime declared that in his opinion Jimmy McLarnin was one of the few remaining fighters.

"You're right," replied Willard. "Turning to Dime, Willard asked: 'Say, Jimmie, what has become of all of the Irish fighters? You never hear of them any more.'"

Dime rattled off the names of some of the former great Irish-American boxers—Sullivan, Corbett, McGovern, the Sullivan Twins, and replied: "There's not any of them left any more."

Asked if his son Allen, now 18, and who some day may be as big as his father, proposed to enter the boxing game, he replied: "No, he likes other kinds of sport." Willard has another son who likes the game, it is said.

Willard travels by auto to the different cities and has been on the road for several months.

Boxing in the South is not going so good as wrestling, he said. He believes now with a new champion, Max Baer, the boxing game will probably show lots more life than it has, as new faces always stimulate the fans.

All-Star Big League Teams Are Selected

All-Star American And National League Game At New York Tuesday

TERRY-CRONIN NAMED MANAGERS

By DAVIS J. WALSH
International News Service Sports Editor

NEW YORK, July 7.—Following a night of meditation and prayer, Managers Bill Terry and Joe Cronin, in charge of the All-Star major league game to be played Tuesday night, managed to announce brokenly and with a pathetic little catch in the breath this morning that finally they have been able to reach a decision on the starting lineups of the American and National League teams. It probably was the same decision they reached this day a week ago but to confess all at that time would neither have been good "theater" nor good sense and, anyhow, what's a little home play among friends?

Real All-Stars.
Therefore, be it known that, after thinking very deeply, it has been decided that the sterling young men of the profession will go to bat as follows:

American League.
Gehringer, Detroit Tigers, 2b.
Marshall, Washington Senators, 1b.
Ruth, New York Yankees, rf.
Gehrig, New York Yankees, 1b.
Higgins, Philadelphia Athletics, 3b.
Simmons, Chicago White Sox, cf.
Cronin, Washington Senators, ss.
Dickey, New York Yankees, c.
Goetz, New York Yankees, p.

National League.
Frisch, St. Louis Cardinals, 2b.
Traynor, Pittsburgh Pirates, 3b.
Klein, Chicago Cubs, or Medwick, St. Louis Cardinals, 1b.
Ott, New York Giants, or Cuyler, Chicago Cubs, rf.
Berger, Boston Braves, cf.
Terry, New York Giants, 1b.
Cronin, New York Giants, ss.
Hartnett, Chicago Cubs, or Lopez, Brooklyn Dodgers, c.
Hubbell, New York Giants, p.

These are, without doubt, the best possible teams and there is no comment on either that seems exactly suitable, except maybe to say that, of all the teams in the National League, Mr. Terry seems to like his own the best. He has named his Mr. Jackson as the starting shortstop, although Vaughan, of the Pirates, hits seventy or eighty points higher. He also originally named his Mr. Moore for the starting outfield but had to recant when the young man developed a lame arm. This reinstated Cuyler but only as a possible alternate for Mr. Terry's Mr. Ott in right field.

Hubbell-Gomez.
As for Mr. Terry's Mr. Hubbell, he naturally couldn't make as the starting pitcher any more than Gomez could on the American League list. On their records, these left handers are the best two pitchers in baseball and, just to make it even, both have been tottering a little during recent weeks.
The Klein-or-Medwick, Ott-or-Cuyler, and Hartnett-or-Lopez combinations indicate that Mr. Terry is not yet ready to become really confidential about his plans. In fact, he's being very mysterious and stealthy, as becomes a world's champion thinker, but I'm inclined to agree with the odds of Tom Kearney, of St. Louis, who rates the American League at 7-10 and the National League at even money.

County League Teams Play Today

Mahoning and the Polish Nationals will play at Glasser field and West Pittsburg will play Bessemer at West Pittsburg today in the Lawrence County Baseball league on tomorrow Wampum will play Bessemer at Bessemer and West Pittsburg will oppose Mahoning on the latter's field, according to the schedule which has been revised.

It's hard to guess what Huey Long's driving at, but apparently he's planning to use his brains sparingly and make them last a lifetime.

Heavy Hitting Features Game

Big League Batters Go After Pitchers Yesterday And Swat Ball Hard

PIRATES DROP TO CHICAGO CUBS 9-1

By PAT ROBINSON
International News Service Sports Writer

NEW YORK, July 7.—Pitching, says Billy Terry, is 35 per cent of a ball game, but after noting what Van Mungo—the Dodgers' one-man pitching staff—did to his Giants yesterday, Bill probably will be willing to boost his estimate another 10 per cent.

Mungo gave only six hits, fanned eight and breezed in, 11 to 2. For once the Dodgers not only gave Mungo perfect support but they fell on Bowman and Smith for 18 assorted wallops, the best of which was Sambo Leslie's homer with every base occupied.

Down in Philadelphia there was a ghastly parade of throwers and when the carnage had ended, it was found the Braves had 11 runs and 33 hits and the Phillies 13 runs, 18 hits and five juicy errors.

Lee Hits Three.
Hal Lee, who is a reformed Dodger and Philly, woke up long enough to blow himself to three home runs.

Guy Bush of the Cubs was another who turned in a good game. The sympathy Mississippi held the Pirates to five hits while his buddies pounded Hoyt and Birkhofer for 15 and a 9 to 1 decision.

Suhr's homer robbed Guy of a shut-out.
But look at what happened in St. Louis when even the Reds could step out and score seven runs in the first inning. But that was only the beginning, folks, and when the sl lighter was over, the Cards had 16 hits and 15 runs and the Reds 15 hits and 16 runs.

Over in the other league rain spoiled what might have developed into quite pitching duel between Bump Hadley of the Browns and Vic Sorrell of the Tigers. The Tigers won, 4 to 3, in five innings after Hadley had given only three hits and Sorrell but four.

Get 20 Hits.
The Red Sox hammered a lot of young fellows. Cooney Mack is trying to develop into pitchers for 20 hits and an 18 to 6 verdict.

Starting pitchers also got the gate in the Yankee-Senator debate which the latter won, 9 to 8, despite Lou Gehrig's 24th home run. Lou drove in three more runs, making ten in two days, and a season total of 81.

The White Sox trimmed the Indians, 7 to 5 to wind up an imperfect day but, as they say on the lower east side of New York—"Phooey on such a pitching."

All-Star Big League Teams Are Selected

All-Star American And National League Game At New York Tuesday

TERRY-CRONIN NAMED MANAGERS

By DAVIS J. WALSH
International News Service Sports Editor

NEW YORK, July 7.—Following a night of meditation and prayer, Managers Bill Terry and Joe Cronin, in charge of the All-Star major league game here on Tuesday next, managed to announce brokenly and with a pathetic little catch in the breath this morning that finally they have been able to reach a decision on the starting lineups of the American and National League teams. It probably was the same decision they reached this day a week ago but to confess all at that time would neither have been good "theatre" nor good sense and, anyhow, what's a little horse play among friends?

Real All-Stars.
Therefore, be it known that, after thinking very deeply, it has been decided that the sterling young men of the profession will go to bat as follows:

American League.
Gehring, Detroit Tigers, 2b.
Manush, Washington Senators, 1f.
Ruth, New York Yankees, rf.
Higgins, Philadelphia Athletics, 3b.
Simmons, Chicago White Sox, cf.
Cronin, Washington Senators, ss.
Dickey, New York Yankees, c.
Gomez, New York Yankees, p.

National League.
Frisch, St. Louis Cardinals, 2b.
Traynor, Pittsburgh Pirates, 3b.
Klein, Chicago Cubs, or Medwick, St. Louis Cardinals, 1f.
Ott, New York Giants, or Cuyler, Chicago Cubs, rf.
Berger, Boston Braves, cf.
Terry, New York Yankees, 1b.
Jackson, New York Giants, ss.
Hartnett, Chicago Cubs, or Lopez, Brooklyn Dodgers, c.
Hubbell, New York Giants, p.

Best Possible Teams.
These are, without doubt, the best possible teams and there is no comment on either that seems exactly suitable, except maybe to say that, of all the teams in the National League, Mr. Terry seems to like his own the best. He has named his Mr. Jackson as the starting shortstop, although Vaughan, of the Pirates, hits seventy or eighty points higher. He also originally named his Mr. Moore for the starting outfield but had to recant when the young man developed a lame arm. This reinstated Cuyler but only as a possible alternate for Mr. Terry's Mr. Ott in right field.

Hubbell-Gomez.
As for Mr. Terry's Mr. Hubbell, he naturally could not miss as the starting pitcher any more than Gomez could on the American League list. On their records, these left handers are the best two pitchers in baseball and, just to make it even, both have been tottering a little during recent weeks.

Klein-or-Medwick, Ott-or-Cuyler and Hartnett-or-Lopez combinations indicate that Mr. Terry is not yet ready to become really confidential about his plans. In fact, he's being very mysterious and, as he's becoming a world's champion thinker, but I'm inclined to agree with the odds of Tom Kearney, of St. Louis, who rates the American League at 7-10 and the National League at even money.

County League Teams Play Today
Mahoning and the Polish Nationals will play at Glasser field and West Pittsburg today in the Lawrence County Baseball league on tomorrow Wampum will play Bessemer at Bessemer and West Pittsburg will oppose Mahoning on the latter's field, according to the schedule which has been revised.

It's hard to guess what Huey Long's driving at, but apparently he's planning to use his brains sparingly and make them last a lifetime.

Heavy Hitting Features Game

Big League Batters Go After Pitchers Yesterday And Swat Ball Hard

PIRATES DROP TO CHICAGO CUBS 9-1

By PAT ROBINSON
International News Service Sports Writer

NEW YORK, July 7.—Pitching, says Bill Terry, is 35 per cent of a ball game, but after noting what Van Mungo—the Dodgers' one-man pitching staff—did to his Giants yesterday, Bill probably will be willing to boost his estimate another 10 per cent.

Mungo gave only six hits, fanned eight and breezed in 11 to 2. For once the Dodgers not only gave Mungo perfect support but they fell on Bowman and Smith for 18 assorted wallops, the best of which was Sambo Leslie's homer with every base occupied.

Down in Philadelphia there was a ghastly parade of throwers and when the carnage had ended, it was found the Braves had 11 runs and 25 hits and the Phillies 13 runs, 18 hits and five juicy errors.

Lee Hits Three
Hal Lee, who is a reformed Dodger and Philly, woke up long enough to blow himself to three home runs. Guy Bush of the Cubs was another who turned in a good game. The sympathy Mississippi plan held the Pirates to five hits while his buddies pounded Hoyt and Birkhofer for 15 and a 9 to 1 decision. Suh's homer robbed Guy of a shut-out.

But look at what happened in St. Louis where even the Reds could step out and score seven runs in the first inning. But that was only the beginning, folks, and when the sl lighter was over, the Cards had 16 hits and 15 runs and the Reds 15 hits and 16 runs.

Over in the other league rain spoiled what might have developed into quite a pitching duel between Bump Hadley of the Browns and Vic Sorrell of the Tigers. The Tigers won, 4 to 3, in five innings after Hadley had given only three hits and Sorrell but four.

Get 20 Hits
The Red Sox hammered a lot of young fellows Connie Mack is trying to develop into pitchers for 20 hits and an 18 to 6 verdict. Starting pitchers also got the gate in the Yankee-Senator debate which the latter won, 9 to 8, despite Lou Gehrig's 24th home run. Lou drove in three more runs, making ten in two days, and a season total of 91.

The White Sox trimmed the Indians, 7 to 5 to wind up an imperfect day but, as they say on the lower east side of New York—"Phooey on such a pitching."

Jess Willard Pays Visit Here

Former World's Heavyweight Champion And Family Visit Miss Evans

JESS EN ROUTE TO NEW ENGLAND STATES

Jess Willard, heavyweight who wrestled the world's championship from Jack Johnson in Havana, almost a score of years ago, with Mrs. Willard and one of their sons, Allen, 18, spent yesterday and part of today with Mrs. Willard's aunt, Miss Margaret Evans, who resides along the Mt. Jackson road near the seventh ward.

The former Kansan, who took up a residence in California after he decrowned Johnson, is en route from southern states to New England states. During the past few months he has been refereeing wrestling matches. Willard reports that wrestling is going over bigger than boxing in many cities.

Among those who visited the former champion were Jimmie Dime, Tom McMahon and Ed. Fritz, sports editor of The News. All of them have known Willard since the days before he won the championship. Willard and McMahon boxed at Youngstown before Willard went West. Dan Dailey also boxed Jess at Buffalo.

The big fellow shows practically none of the earmarks of the battles he went through. Since leaving the ring he has been engaged in the real estate business and for a time operated a big meat market in Los Angeles. Recently he has found that his services as a wrestling referee were in demand.

When Jack Johnson's name was mentioned and it was said that Jack was heading a colored orchestra, the big guy smiled and said: "Jack will get along"; and in mentioning the fight between Willard and Jack Dempsey at Toledo Tom McMahon said:

Dempsey Left Ring
"If you had had a couple of smart seconds in your corner that day you might not have lost the title, as Dempsey got out of the ring."

"You're right," replied Willard, who was far from content when he battled the rip-smashing Dempsey.

Willard hasn't seen Maxie Baer fight recently, but he has seen Art Lasky, a new heavyweight who recently beat King Levinsky on the coast.

Big Jess believes that Art will have to grow a little more sturdy, and agreed with Jimmie Dime that there are few "fighters" left.

Dime declared that in his opinion Jimmy McLarnin was one of the few remaining fighters.

"You're right," replied Willard. Turning to Dime, Willard asked: "Say, Jimmie, what has become of all of the Irish fighters? You never hear of them any more."

Dime rattled off the names of some of the former great Irish-American boxers—Sullivan, Corbett, McGovern, the Sullivan Twins, and replied, "There's not any of them left any more."

Asked if his son Allen, now 18, and who some day may be as big as his father, proposed to enter the boxing game, he replied: "No, he likes other kinds of sport." Willard has another son who likes the game, it is said.

Willard travels by auto to the different cities and has been on the road for several months.

Boxing in the South is not going so good as wrestling, he said. He believes now with a new champion, Max Baer, the boxing game will probably show lots more life than it has, as new faces always stimulate the fans.

WASHINGTON, July 7.—Possibility of a board of business leaders and nationally prominent figures replacing General Hugh S. Johnson as ruler of the NRA was being discussed in recovery administration circles here today.

The plan may be presented to President Roosevelt upon his return from his Pacific cruise. It was understood to be designed to meet the desire of business and industrial leaders to abolish the one-man rule of the NRA and turn the administrative functions over to a governing board.

There were indications the plan was being sponsored by so-called "big business," especially the United States Chamber of Commerce.

Heat Wave Takes Two More Lives

Scores Of Philadelphians Treated For Heat Prostrations; Mercury At 95

HUMIDITY ABOVE NORMAL FIGURE

(International News Service)
PHILADELPHIA, July 7.—Two additional deaths were recorded here today to augment the growing list of victims killed by the unrelenting 17-day-old heat wave. One death was directly attributed to the oppressive warmth while the second was due to drowning.

While working at a Pennsylvania railroad roundhouse, John P. G. Andrews, 47, was prostrated by the heat. He fell across a live wire and was electrocuted.

The drowning victim was Edward Miller, 19, who, with a party of friends, sought relief from the torrid climate in the Delaware river.

Scores of Philadelphians were treated for heat prostration in the city's hospitals during the past 24 hours as the mercury climbed to a 95-degree maximum.

Hoping to get some sleep in the smothering atmosphere, Henry Weber, 34, made his bed atop the porch of his home. He rolled off the porch roof and was taken to a hospital suffering from a fractured hip.

Intensifying the discomfort, the humidity averaged three times the normal percentage.

Fifteen Polo Ponies Killed

Officials Probe Mysterious Fire That Destroys Barn Housing Polo Ponies

(International News Service)
PENNSYLVANIA, July 7.—Authorities today were attempting to trace the origin of a fire which trapped and killed 15 polo ponies in a barn of the Penikese Polo Club. The animals, belonging to wealthy Philadelphians, were valued at more than \$40,000.

Spontaneous combustion in a hayloft, it was believed, may have caused the blaze which broke out late last night. The flames enveloped the huge barn so rapidly that members of the club were able to save only one pony.

They were attracted to the conflagration by the piteous screams of the dying ponies.

So spectacular was the fire that its reflection in the night sky could be seen twelve miles away.

No Further Pay Increase For Federal Workers For Another Six Months At Least

(International News Service)
WASHINGTON, July 7.—On the grounds that living costs are twenty per cent below the 1928 level, the administration today had decreed that federal employees must be satisfied with existing wages and not expect any further pay-out restoration for another six months at least.

Federal workers already have received back ten per cent of the original 15 per cent slash but the final five per cent raise was ruled out by President Roosevelt on the basis of cost of living statistics compiled by the labor department.

These statistics showed living expenses throughout the nation are still 20.2 per cent lower than for the six months ended June 30, 1928.

Another Dull Session In Market; Little Change In Prices Occurs

UTILITY STOCKS ARE QUITE FIRM

By LESLIE GOULD

NEW YORK, July 7.—The stock market turned in another dull Saturday session today with prices showing little change from yesterday's closing levels.

Trading slowed down to a snail's pace with turnover at the rate of less than 200,000 shares for the 2-hour session.

Some profit taking made its appearance in the last half hour but the dullness left this without significance.

Oil shares, strong spots at the start, showed some effects of the profit taking as Standard of California lost a fraction.

Utility stocks, however, were firm throughout and finished fractionally higher in most instances. American Telephone was steady around yesterday's close. Western Union, however, was easier losing about a point.

In the rails, turnover tapered off to the vanishing point. Fluctuations were narrow and virtually meaningless.

Industrial shares presented a similar appearance with United States Steel, Bethlehem and others practically unchanged.

Motor stocks were quiet with Auburn recovering after early weakness.

Stock Market Is Dull Today

Another Dull Session In Market; Little Change In Prices Occurs

UTILITY STOCKS ARE QUITE FIRM

By LESLIE GOULD
International News Service
Financial Writer

NEW YORK, July 7.—The stock market turned in another dull Saturday session today with prices showing little change from yesterday's closing levels.

Trading slowed down to a snail's pace with turnover at the rate of less than 200,000 shares for the 2 hour session.

Some profit taking made its appearance in the last half hour but the dullness left this without significance.

Oil shares, strong spots at the start, showed some effects of the profit taking as Standard of California lost a fraction.

Utility stocks, however, were firm throughout and finished fractionally higher in most instances. American Telephone was steady around yesterday's close. Western Union, however, was easier losing about a point.

In the rails, turnover tapered off to the vanishing point. Fluctuations were narrow and virtually meaningless.

Industrial shares presented a similar appearance with United States Steel, Bethlehem and others practically unchanged.

Motor stocks were quiet with Auburn recovering after early weakness.

Large Crowd Enjoys Oriental Dinner Event

Sons and daughters of that far away and colorful land of the Orient, Syria, were charming hosts to a half thousand people of New Castle and surrounding cities at a magnificent dinner and entertainment in the Cathedral Friday night.

It was as far from an "ordinary" event as Damascus is from New Castle and was concrete proof of the fact that the Syrian Orthodox association of this city knows how to plan and cook a good dinner, knows how to entertain and knows how to give a good crowd together.

Although the evening was entirely a social one it had behind it a splendid, noble purpose—it was a benefit affair for St. Elias Syrian Orthodox church. Needless to say, it was a financial as well as a social success, and the attendance surpassed that of the first Oriental dinner held at the Cathedral one year ago.

Walter S. Reynolds was chairman of the evening (as he was last year) and Walter has a "way" about him that makes him a natural toastmaster. He has been in Syria, by the way, and there were not many songs nor dances on the program that were new to him. Mayor Charles B. Mayne was there as Judge R. L. Hildebrand. Both gave short addresses.

Here is a number-by-number account of the very excellent program: Chairman—Walter S. Reynolds.

"America"—Everybody.

Syrian Welcome Song—Mrs. Jennie Abraham, Mrs. Zaphra Albert, Mrs. Lillian Baker, Miss Josephine Albert, Miss Elizabeth Albert, Miss Genevieve Asper, Miss Mary Jacobs.

Comedy act—Miss Anna Deep, Albert Richey.

Speaker—Attorney Joseph Sheban, Youngstown, O.

Violin selection with piano accompaniment—Miss Rose Michael, Ameal Michael.

Amsterdam Riots Believed Quelled

Seven Killed And Fifty Injured In Series Of Bloody Riots

(International News Service)
AMSTERDAM, July 7.—After two nights of bloody rioting in which seven were killed and fifty injured, authorities today expressed the belief that they had the situation in hand and would be able to prevent further disorders.

The riot was started by unemployed men who objected to a reduction in the relief allowances. Agitators and Communist elements were accused of instigating the trouble.

Early today the police and troops, which had been called out after a conference of government officials at The Hague, gained control and cleared the streets of rioters. Shops throughout the city were carefully guarded against looting.

Squire Hears Case Caused By Turkey Crashing Windshield

Turkeys are turkeys and you can't tell one from the other if not more so. This fact was brought out in the court of Alderman James C. Brice, Friday afternoon when Walter Moore of Edensburg attempted to get judgment against Ernest Cochran for the price of a windshield, broken by a turkey flying through the windshield on the Pulaski road.

Mr. Cochran lives on the Pulaski road. Mr. Cochran keeps turkeys. The accident occurred near his place where he keeps the turkeys. But it wasn't his turkey he claims, that did a Brodie through the windshield of Mr. Moore, causing him no little embarrassment. You can imagine.

So the squire dismissed the case. Mr. Cochran testified that he wouldn't know his turkeys from anybody's else and anyway the turkey that flew through the windshield wasn't his.

While the matter is said to be still pending, amendments to the state constitution, the Department of Public Instruction in relation to school teachers' salaries for New Castle was made Friday in a conference in Harrisburg. The local board was represented by Superintendent C. C. Green and Director Roy W. Hazen.

The budget was drawn for the coming school year. The idea that the 20 per cent reduction in teachers' salaries would continue as it has for two years. In addition to that the board was notified that there would be fifteen per cent reduction in the state appropriation.

The state department notified the local board that it would not cut a cut of twenty per cent, a cut of ten above the ten permitted by law but that it would permit an additional five per cent, or a total of fifteen per cent. With the reduced state appropriation this would mean approximately \$50,000 the board would have to find in addition to the estimated revenues set up in the budget.

The state department informed the local men that there had been some amendments to the 15 per cent appropriation cut. For the first four months of the school term the department will pay the appropriation in full. This would bring them up to the 1933 session of the general assembly when some action might eventually be taken to enable the department to make the payments in full.

As to the additional five per cent cut in teachers' salaries here the matter is not entirely settled although the state department seems indisposed to make any further concessions.

Large Crowd Enjoys Oriental Dinner Event

Sons and daughters of that far away and colorful land of the Orient, Syria, were charming hosts to a half thousand people of New Castle and surrounding cities at a magnificent dinner and entertainment in the Cathedral Friday night.

It was as far from an "ordinary" event as Damascus is from New Castle and was concrete proof of the fact that the Syrian Orthodox association of this city knows how to plan and cook a good dinner, knows how to entertain and knows how to get a good crowd together.

Although the evening was entirely a social one it had behind it a splendid, noble purpose—it was a benefit affair for St. Elias Syrian Orthodox church. Needless to say, it was a financial as well as a social success, and the attendance surpassed that of the first Oriental dinner held at the Cathedral one year ago.

Walter S. Reynolds was chairman of the evening (as he was last year) and Walter has a "way" about him that makes him a natural toastmaster. He has been in Syria, by the way, and there were not many songs nor dances on the program that were new to him. Mayor Charles B. Mayne was there as was Judge R. L. Hildebrand. Both gave short addresses.

Here is a number-by-number account of the very excellent program:

Chairman—Walter S. Reynolds.

"America"—Everybody.

Syrian Welcome Song—Mrs. Jennie Abraham, Mrs. Zaphia Albert, Mrs. Lillian Baker, Miss Josephine Albert, Miss Elizabeth Albert, Miss Genevieve Asper, Miss Mary Jacobs. Remarks—Mayor Charles B. Mayne.

Ancient Arabic Dabkey—By the girls, musical accompaniment on the Zammer by Assad Mike.

Speaker—Judge R. L. Hildebrand. Violin with piano accompaniment—Miss June Deep, Albert Richey.

Syrian Folk Song—Mrs. Jennie Abraham, Mrs. Zaphia Albert, Mrs. Lillian Baker, Miss Josephine Albert, Miss Elizabeth Albert, Miss Genevieve Asper, Miss Mary Jacobs. Address—Joseph M. Khoury, editor of "Ash Shaab", New York City.

Oriental dances—Mrs. Lillian Baker.

Large Crowd Enjoys Oriental Dinner Event

Sons and daughters of that far away and colorful land of the Orient, Syria, were charming hosts to a half thousand people of New Castle and surrounding cities at a magnificent dinner and entertainment in the Cathedral Friday night.

It was as far from an "ordinary" event as Damascus is from New Castle and was concrete proof of the fact that the Syrian Orthodox association of this city knows how to plan and cook a good dinner, knows how to entertain and knows how to give a good crowd together.

Although the evening was entirely a social one it had behind it a splendid, noble purpose—it was a benefit affair for St. Elias Syrian Orthodox church. Needless to say, it was a financial as well as a social success, and the attendance surpassed that of the first Oriental dinner held at the Cathedral one year ago.

Walter S. Reynolds was chairman of the evening (as he was last year) and Walter has a "way" about him that makes him a natural toastmaster. He has been in Syria, by the way, and there were not many songs nor dances on the program that were new to him. Mayor Charles E. Mayne was there as judge R. L. Hildebrand. Both gave short addresses.

Here is a number-by-number account of the very excellent program:

Chairman—Walter S. Reynolds.
"America"—Everybody.

Syrian Welcome Song—Mrs. Jennie Abraham, Mrs. Zaphia Albert, Mrs. Lillian Baker, Miss Josephine Albert, Miss Elizabeth Albert, Miss Genevieve Asper, Miss Mary Jacobs. Welcome—Mrs. Jennie Abraham. Remarks—Mayor Charles E. Mayne.

Ancient Arabic Dabkey—By the girls, musical accompaniment on the Zamar by Assad Mito.

Speaker—Judge R. L. Hildebrand. Violin with piano accompaniment—Miss June Deep, Albert Richey.

Syrian Folk Song—Mrs. Jennie Abraham, Mrs. Zaphia Albert, Mrs. Lillian Baker, Miss Josephine Albert, Miss Elizabeth Albert, Miss Genevieve Asper, Miss Mary Jacobs.

Address—Joseph M. Khoury, editor of "Ash Shaab," New York City.

Oriental dances—Mrs. Lillian Baker.

Comedy act—Miss Anna Deep, Albert Richey.

Speaker—Attorney Joseph Sheban, Youngstown, O.

Oriental selection (Aoud)—Ellas Wakim, Canton, O.

Genevieve Asper.

Oriental dance—Miss Adele Richey.

Remarks—Michael Swaid.

Violin selection with piano accompaniment—Miss Rose Michael, Ameal Michael.

Oriental dances—Miss Mary Jacobs, Miss Mary Albert.

Remarks—Mrs. Jennie Abraham.

Mr. Khoury from New York City made his address in the Syrian language. He brought a message of unusual interest and held the rapt attention of his huge audience. Mr. Khoury is a distinguished, cultured and learned personage. The newspaper of which he is editor is the national Syrian publication.

Coming back to the dinner, it might be said that every item on the menu was Oriental—and delicious. The Syrian names of the dishes, with explanations, are interesting. Here they are:

Kubee (crushed wheat and lamb with butter).

Malfoof (cabbage leaves rolled with rice and meat).

Baitenjah (egg plant stuffed with rice and lamb meat).

Loobah (string beans, butter, lamb and tomatoes).

Oriental salad.

Coffee.

Oriental cake: Bakiaowa (made up of 40 layers of dough with butter between each layer and walnuts and sugar in the center with syrup).

Ice cream.

Turkish coffee.

The committee responsible for the food preparation—Mrs. Kokab Orr, Mrs. Freda Abraham, Mrs. Nahwey Davis, Mrs. Nizha Abraham, Mrs. Fudde Barkett, Mrs. T. Jacobs, Mrs. Sadie John, Mrs. A. Nader, Mrs. Nubaha Abraham, Mrs. Nizha Thomas, Mrs. Saleema Tony, Mrs. Mary Asper, Mrs. Elizabeth Nedar, Tony Albert, Richard Abraham, Thomas Albert and Mrs. Manefi Bashur.

And it was Mrs. Jennie Abraham and her committee, Mrs. Sylvia Jacobs, Mrs. Zaphia Albert, Mrs. Freda Abraham, Mrs. Nizha Abraham, Mrs. Kokab Orr, Mrs. Nahwey Davis, Mrs. T. Jacobs, Mrs. Manefi Bashur, Charles Richey, Thomas Deep and Samuel Abraham, who worked so hard and so well to make the gathering the great success it was.
